Dear Mr Kean,

**Application by WTI/EFW Holdings Ltd for an Order Granting Development Consent for the Wheelabrator Kemsley (K3) Generating Station and the Wheelabrator Kemsley North (WKN) waste to energy facility
Response from the South East Waste Planning Advisory Group to the Examining Authority's written questions and requests for information (ExQ4)**

This response is submitted on behalf of the South East Waste Planning Advisory Group (SEWPAG). The response solely concerns question 4.1.4 concerning comparable capacity in the south east permitted since 2017.

Waste Planning Authority	Additional Recovery Capacity
Buckinghamshire	Nil
East Sussex	Nil
Hampshire	3,200 tpa
Kent	See submissions made by Kent County Council
Medway	Nil

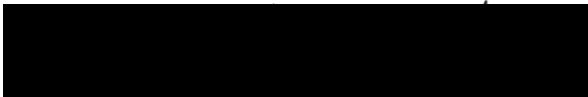

Milton Keynes	MK Waste Recovery Park, Wolverton Application 13/00861/FULEIS approved on 12.07.2013 and operational since March 2018. The permission was for mechanical treatment, anaerobic digestion and in-vessel composting and advanced thermal treatment of 140,000 tonnes/year of household, commercial and industrial waste and generation of electricity.
Oxfordshire	Three permissions in Oxfordshire that give additional “other recovery” capacity – see details below
Surrey	Charlton Lane EcoPark – 55,000tpa – currently being commissioned
West Berkshire Council	Nil
West Sussex	320,000 tonnes of permitted recovery EfW capacity at Ford (not yet constructed) with an application being considered (WSCC/036/20) which, if permitted, would increase recovery capacity by an additional 135,000 tonnes.

Please note this information relates to some areas not included in the WTI ‘Study Area’ but within a two hour travel time.

I hope this information is of use.

Please contact me if you have any queries regarding this response.

Yours sincerely,

Ian Blake

Chair, South East Waste Planning Advisory Group

Additional capacity in Oxfordshire

Date Permitted	Site Name	Type of Facility	Waste Type	Additional Capacity Permitted	End Date	Planning Permission Reference
8.3.2018	Cassington/ Worton Farm AD Facility	Anaerobic Digestion	Kitchen / Green Waste	22,500tpa (now 48,500tpa)	Perm	MW.0102/17
