Subject: FW: Thanet Extension Offshore Wind Farm DCO EN010084, The National Trust 20012611, Deadline 2

Dear Sir or Madam, further to our earlier representations regarding issue specific hearing CAH1, compulsory purchase, we would like to add the following to our submissions.

As expected, at deadline 1 the applicant put forward proposed changes to the Book of Reference which make clear that the Trust's interests in its inalienable land will be subject to acquisition under the draft DCO. The Trust maintains its objection to the proposed acquisition of its interests in its inalienable land. Nonetheless, without prejudice to the other points made in its relevant and written representations, the National Trust hopes that land acquisition matters will be able to be agreed with the applicant during the examination process.

Thank you

Andrew Shaw MRTPI

Planning Adviser, London and South East Region.
