Kate

Thank you for supplying more details on the hearings and who the Examiner is inviting. Based on the agenda's it not our intention to attend the hearings we have been invited to:

ISH3 Environmental Matters, Ecology, Habitats Regulation Assessment (HRA), Physical, Construction and Other Matters

3. Foundations and trenching – we did have concerns in relation to WDF compliance however, following details provided by the applicant our concerns have been allayed and so we wouldn't have to add to this hearing in this regard.

4. Construction and Operational Effects on Land

I have discussed the discussion points with colleagues and from our perspective and we have decided that we would have very little to add to the hearing that we haven't already detailed in our responses and discussed in a lot of details with the applicant.

It's the detail that we need to see for example the site investigation, Flood Risk Activity Permit application.

ISH6 Fishing and fisheries

I see we are invited, however we have not raised any issue in this regard. As such we aren't proposing to attend this hearing.

We are of course happy to answer any questions in writing that may require our input if they come up at the hearings.

Kind Regards,

Jennifer Wilson
