

## ISH6: Hearings Action Points

Application by Vattenfall Ltd for an Order Granting Development Consent for the Thanet Offshore Wind Farm Extension.

Actions arising from the **Issue Specific Hearing 6** (ISH6) held at Discovery Park, Sandwich on **20 February 2019**.

	<b>Action</b>	<b>Party</b>	<b>Deadline</b>
1	<p><b>WTG platform lighting</b></p> <p>The Applicant is to consider the question of platform lighting to assist navigation within the array area by fishing vessels, whether it can be provided as part of the TEOW project and how it could be secured within the DCO.</p>	The Applicant	D3
2	<p><b>Mitigation for reduction in fishing grounds</b></p> <p>The Applicant to consider the extent to which a group of mitigation measures could be secured to ensure the safety of fishermen in the area of TEOWF, particularly in the area referred to as 'the Inshore Route'. To include consideration of contributions toward AIS systems for fishing community.</p> <p>TFA to continue to engage with the Applicant to agree which measures might be capable of being secured in the Fisheries Coexistence Liaison Plan.</p> <p>Progress update by the Applicant at D3. This matter to be included within the agenda for ISH8 in April.</p>	The Applicant and Thanet Fishermen's Association	D3 and ISH8
3	<p><b>Consideration of the effects on fishing vessels to be included within the planned Navigation technical workshop</b></p> <p>Applicant to include within the navigation technical workshop the explicit consideration of to make allowance for the presence for a range of vessels including fishing vessels. To include actions in restricted visibility or adverse weather conditions.</p>	The Applicant	For the Navigation technical workshop

	<b>Action</b>	<b>Party</b>	<b>Deadline</b>
	TFA to submit to the applicant by the end of this week written submissions information about the normal passing distances with ships in practice.		
5	<b>ES assessment outcomes in relation to loss of fishing grounds</b> The Applicant and TFA to engage to address remaining areas of disagreement, particularly in relation to ES assessment of effects of loss of fishing grounds.	The Applicant and TFA	April hearings
6	<b>Survey vessel track</b> The Applicant is to confirm whether there is a plotted track of the shipping survey vessel. If this exists it should be submitted at D3. It should also be made available to the technical workshop where consideration should be given to the question of whether its location and avoidance behaviours by other vessels might have affected the shipping survey outcomes.	The Applicant	The technical workshop / D3
7	<b>TFA to submit to ExA anonymised screenshots of the Succorfish data presented at ISH6</b>	TFA	D3
