Viewpoint 2: Borstal Hill, Whitstable , Wireframe (75° Angle of View)

VIEWING INSTRUCTIONS

The above visualisation is made up of three 50mm photographs joined together horizontally to form an overall field of view of 75°. The visualisation gives an impression of the appearance of the proposed development as it would be seen in the existing view. For correct perspective viewing, this image should be viewed at a distance of 30cm with one eye whilst curving the image in an arc of 75°. This image should only be assessed in the field from the same viewpoint location. It should be noted that in reality neither photographs or visualisations can convey a view exactly as it would be seen by the human eye.

Viewpoint 2: Borstal Hill, Whitstable, Existing View (39.6° Angle of View)

**VIEWING INSTRUCTIONS**

The above image illustrates a single frame taken using a 50mm lens and comprises a field of view of 39.6°. For correct perspective viewing, this image should be viewed at a distance of 50cm with both eyes. The image should only be assessed in the field from the same viewpoint location. It should be noted that in reality neither photographs or visualisations can convey a view exactly as it would be seen by the human eye.

To ensure the image is viewed correctly this sheet must be viewed/printed at a size of 42cm x 29.7cm.
