### Purpose of Issue Specific Hearing 9 (ISH9)

The ExA will examine the draft Development Consent Order (dDCO) within the framework of the matters set out below, focussing on progress on the dDCO since ISH7 and matters relevant to the dDCO that have arisen in ISH8 and CAH2:

- how the dDCO responds to the project definition and addresses the relationship between the existing and proposed wind turbine generator arrays, offshore and onshore works and the grid connection;
- the following technical and drafting matters:
  - the Applicant's response to guidance in PINS Advice Notes, particularly AN13 and AN15<sup>3</sup>;
  - the justification for dDCO provisions provided in the Statement of Reasons and other relevant policy and technical matters;
  - o the need for changes to other legislative provisions, ensuring that these are clear and are not unduly reductive of other persons' rights;
  - o whether policy tests for requirements are met;

<sup>&</sup>lt;sup>1</sup> This hearing will follow directly on from CAH2. If intending participants arrive to find that hearing is still in session, they are requested to sit at the rear of the hearing room until that hearing concludes.

<sup>&</sup>lt;sup>2</sup> Building 500 is adjacent to and in the same building complex as Discovery House.

<sup>&</sup>lt;sup>3</sup> The Planning Inspectorate's Advice Notes can be found at: <a href="https://infrastructure.planninginspectorate.gov.uk/legislation-and-advice/advice-notes/">https://infrastructure.planninginspectorate.gov.uk/legislation-and-advice/advice-notes/</a>

- the relationship between the deemed marine licenses (DMLs) and the remainder of the dDCO;
- o the justification for DML provisions;
- the need for and progress on protective provisions and the scope for changes to the current draft to respond to negotiations in progress;
- the need for any commercial agreements, planning obligations or equivalent side provisions and progress towards these;
- o the need for and progress on Crown, statutory undertaker and any other consents; and
- o technical and drafting questions identified in the Schedule to this Agenda.
- matters relevant to the dDCO arising from submissions at Deadlines 1 to 4C;
  and
- proposals that certain matters require security in the dDCO and the adequacy of security.

The ExA will examine matters arising from the content of individual relevant representations (RRs) and written representations (WR) at this hearing. Technical drafting considerations relating to compulsory acquisition (CA) and the temporary possession (TP) of land will be examined if necessary, but the individual affected persons (APs) concerns about their land and rights will only be examined in the Compulsory Acquisition Hearing (CAH2, 18 April 2019 at 09.30am, Agenda **Annex C**).

The ExA will examine the DMLs within the framework of its examination of the dDCO.

Participation, conduct and management of hearing

This hearing, and the intended subsequent hearing on the dDCO in April 2019 will be held without prejudice to the ExA's consideration of the broader planning merits of the Application.

All IPs are invited to participate in the hearing. Each IP is entitled to make oral representations at the hearing. However, this is subject to the ExA's power to control the hearing.

The ExA requests that the following attendees participate in ISH9 into the dDCO:

- the Applicant
- Kent County Council (KCC)
- Dover District Council (DCC)
- Thanet District Council (TDC)
- The Marine Management Organisation (MMO) in respect of the DMLs
- Any other IPs or Other Persons with an interest in the drafting of the DCO; implementation or discharge of proposed articles, requirements or other provisions; seeking protective provisions or any related side agreements.

Participants may be legally represented if they wish, but the hearing will be conducted to ensure that legal representation is not required. The Applicant and IPs may consider attending with the following expert advisers, but IPs may participate without expert advice:

- Engineers and project managers, responsible for project design and delivery;
- · Lawyers engaged in statutory drafting, planning and environmental law; and
- Town Planners or Surveyors engaged in the negotiation of requirements and agreements relating to the use and development of land.

Guidance under the Planning Act 2008 (PA 2008)<sup>4</sup> and the Infrastructure Planning (Examination Procedure) Rules 2010 provide that it is the ExA that will probe, test and assess the evidence through direct questioning of persons making oral representations at hearings. Questioning at the hearing will be led by the ExA.

Cross-questioning of the person giving evidence by another person will only be permitted if the ExA decides it is necessary to ensure representations are adequately tested or that a person has had a fair chance to put their case. The hearing will run until all IPs have made their representations and responded to the ExA's exploration of the matters in accordance with the agenda set.

Please note that the following agenda is indicative and may be amended by the ExA at the start of the hearing session. Following practice adopted at ISH7 with attendees' support, the ExA may address multiple agenda items bearing on the dDCO by taking them in the sequence of Order provisions. Furthermore, the ExA may wish to raise other matters arising from oral submissions and pursue lines of inquiry in the course of the discussion which are not on the agenda.
