Dear Sirs

I should like to suggest some further viewing points for the Examination Authority to consider in the application by Cleve Hill Solar for a 50mw solar array.

All sites are shown on the OS Explorer Map no. 149 Sittingbourne & Faversham, Isle of Sheppey.

Oare Marshes Nature Reserve: TR 017 646

Footpath on West side of Oare Creek: TR 016 638 to TR 017 646

Harty Ferry Cottages: TR 013 641

The Ferry Inn, Isle of Harty: TR 015 659

South side of Harty Church at Sayes Court: TR 023 663

Faversham Medical Centre on Thanet Way: TR 096 643

Shell Ness, Isle of Sheppey: TR 050 673

Footpath to south of Swale National Nature Reserve, Isle of Sheppey: TR 032 663 to TR 053 683

The Boughton Bypass (A2) heading West - WNW: TR 075 587 (Approx)

These are obviously in addition to the viewpoints I think you have already visited such as Graveney Church, The Saxon Shore Way alongside the north boundary of the site and Graveney Hill.

Sincerely

Victoria Osborne

Registered as an Interested Party

In addition I would like to draw the EA's attention to the iconic view of Faversham Church Steeple looking SW across the marshes from the Saxon Shore Way, particularly at Castle Coote: TR 035 646
