I am emailing to say I would like to be able to talk at one of the open hearings on the proposed Graveney Marshes Solar park. I am a local resident and in particular want to talk about safe pedestrian access around the village if the park development gets approved. I specifically have an interest in disability access, which being a parent of a disabled child I have personal experience of.

Please can you inform me of my acceptance onto this open hearing?

Kind regards

Sam Bowen
