Dear Hefin

It was good to meet you at the hearings last week and to put such a friendly face to your name.

As mentioned, I am writing to request further Issue Specific Hearings on:

1. The battery energy storage system
2. Additional hearing on Need in the light of the recent National Grid's Future Energy Scenario FES2019.

Submissions in relation to these, with questions to be answered by the developers, will follow.

Kind regards

David
