CLEVE HILL
SOLAR PARK

- Site Boundary
- Site Infrastructure
- Areas of Development not visible from VP14
- Areas of Development visible from VP14
- ⦿ Viewpoint 14
- Sea Wall

The area of theoretical visibility is based on a viewer height of 1.6 m AGL. The theoretical visibility of the development has taken into consideration the differing heights of solar panels within each field. The screening effect of the infrastructure itself is not accounted for. The theoretical area of visibility is based on OS Terrain 5 Digital Terrain Model, combined with elevations taken from a topographic survey of the Sea Wall to the north of the development. Viewpoint 14 Grid Reference: 602306, 166258
