Subject: Objections to proposed solar panels at Graveney
Date: 08 November 2019 12:18:50

I have two main objections, danger to wildlife and danger to human life. 1,000 acres of glass pose a real danger to migrating sea birds looking for rest and recuperation after crossing the North Sea. The world's biggest Lithium ion battery poses a real danger to local residents in the event of a fire.

Sincerely

Nigel Sherratt
