To Whom it May Concern

I am a resident of Seasalter on the outskirts of Whitstable I would like to register my deep and desolate concern regarding the following:

1. The destruction of our marshland. It's beautiful. It's important to both wildlife and to climate change.
2. The size of the proposed Solar Park. It will blight forever this area, the surrounding roads, villages and towns. The impact will not end with its construction, it will need constant maintenance and servicing.
3. The danger. I use small Lithium Ion batteries in my work as a cameraman. I am forbidden to put them in the hold of an aeroplane they are perceived to be a fire risk. I am limited to carry on only 2 in my hand baggage.

To think of the potential risks associated to the huge battery storage on this proposed site literally makes my blood run cold. SO MANY PEOPLE WOULD BE RUINOUSLY INJURED by any accident.

How this project can even be considered on this unprecedented scale in this country is further proof that MONEY IS VALUED ABOVE QUALITY OF LIFE. That PROFIT FOR THE FEW is favoured regardless of the impact on our countryside, our lives, our homes and our wellbeing.

I urge you, please, to reject this proposal for the common good.

Yours faithfully

Sarah Myland
