Norfolk Boreas Offshore Wind Farm Proposal

Please complete this questionnaire to let us know your views on the offshore wind farm and onshore elements of the proposal.

We are developing proposals for an offshore wind farm, located 73km off the Norfolk coast at its closest point. The Norfolk Boreas Offshore Wind Farm could accommodate an installed capacity of up to 1,800 megawatts (MW), which could generate enough electricity for the domestic needs of around 1.3 million homes¹.

We have prepared a Consultation Summary Document, which includes a description of the project elements, information about the Environmental Impact Assessment (EIA), the Preliminary Environmental Information Report (PEIR) and details of how you can respond to the consultation.

Please refer to the Consultation Summary Document for additional information to help provide us with your feedback on the proposal. You may also wish to refer to the PEIR or to the shorter non-technical summary (NTS) of the PEIR for more detailed information.

Electronic copies of all consultation documents, including this feedback form, can be found online on the project website www.vattenfall.co.uk/norfolkboreas. You can also return this questionnaire via post (FREEPOST address below) and via email.

- **FREEPOST NORFOLK BOREAS**
(no stamp required)
- **info@norfolkboreas.co.uk**

You do not have to answer all or any of the questions on this form, and if you wish to make any other comments on the Project, there is space set aside at the end of this form.

The statutory consultation will run from **Wednesday 7th November 2018 to 11.59pm on Sunday 9th December 2018**. It is important you submit your feedback and comments to us before the closing date, so that we can consider them in our proposals.

We very much value your comments.

In order that we can formally record your comments, some personal details will be required.

Name: _____

Address: _____

Postcode: _____

Email address: _____

Organisation (if applicable): _____

Age: _____

Personal information that is supplied to Norfolk Boreas Limited (NBL) in connection with its Development Consent Order application and proposals will be treated confidentially and processed and handled in accordance with the Data Protection Act 1998 and the GDPR 2018. The information may be disclosed to or shared with NBL connected companies, agents, contractors and advisors who provide services to NBL in connection with the Development Consent Order application.

¹ Number of homes equivalent: This is calculated using statistics from the Department for Business, Energy and Industrial Strategy showing that annual UK average domestic household consumption is 4,115kWh: renewableuk.com/page/UKWEDEexplained

Where did you receive this feedback form?

- At a consultation event (if so state which one)
- At an information point (if so, state which one)
- Online
- Other (if so, state where) _____

About the consultation

1. How did you hear about the Norfolk Boreas Offshore Wind Farm Consultation? (please tick as many boxes as appropriate)

- | | |
|--|---|
| <input type="checkbox"/> Newsletter through my door | <input type="checkbox"/> Word of mouth |
| <input type="checkbox"/> Local Newspaper article | <input type="checkbox"/> Poster |
| <input type="checkbox"/> Newspaper Advert | <input type="checkbox"/> Social media |
| <input type="checkbox"/> Project webpages | <input type="checkbox"/> Facebook advert |
| <input type="checkbox"/> Council or Parish Council website or newsletter | <input type="checkbox"/> Statement of Community Consultation Notice |
| <input type="checkbox"/> Other (please state) _____ | |

2. Have you found the information presented in the Consultation Summary Document helpful in addressing any questions or concerns you may have had?

- Yes
- No
- I haven't seen the Consultation Summary Document

Do you have any comments about the Consultation Summary Document?

3. Have you looked at other relevant information provided to help you learn more about the proposals for Norfolk Boreas? (tick as many boxes as appropriate)

- The PEIR
- The PEIR NTS
- Project Newsletter(s)
- Information leaflet(s)
- Exhibition materials

4. Have you found the public drop-in exhibitions helpful in answering any questions or concerns you may have had?

- Yes. Which drop-in(s) did you attend? (please state) _____
- No I haven't attended a drop-in exhibition

Do you have any comments about the exhibitions?

The need for the project

5. Please tell us your views on offshore wind and its role in the UK's energy mix?

- I am supportive of the development of offshore wind in the UK
- I do not support the development of offshore wind in the UK

Please comment on your answer

Environmental Impact Assessment

Please refer to the PEIR, NTS or Consultation Summary Document to access information about the EIA carried out for Norfolk Boreas.

6. Do you have any comments on the environmental information and the suggested mitigation proposed in the PEIR and Consultation Summary Document?

Landscape mitigation and micro-siting of onshore substation

In the Consultation Summary Document we set out the parameters for the landscaping mitigation under Scenarios 1 and 2, and micro-siting of the onshore project substation infrastructure under Scenario 2. Additional detail can be found in chapter 29 of the PEIR.

7. Do you have any comments on landscaping and micro-siting?

General feedback

We have described proposed measures for reducing impacts during construction and operation of the Project.

Generally it is anticipated that the impacts during decommissioning would be similar to those identified for construction, although are likely to be of lower scale.

For more detail on decommissioning works, see the PEIR or NTS.

8. Are there any other environmental, operational or visual impacts from the construction, operation or decommissioning of the onshore and offshore elements of the Project that you think we should consider? Please suggest any specific mitigation measures you consider appropriate in regard to the(se) impact(s)?

9. We welcome any further feedback on the Norfolk Boreas Offshore Wind Farm proposal you may wish to provide at this stage.
