¹ This gazetteer includes only those heritage assets relevant to onshore archaeology and cultural heritage that are recorded within the Non-designated Heritage Assets study area: defined by a 500m boundary around (either side of) and including the onshore cable route, the landfall zone and onshore project substation, a 50m boundary around (either side of) the side accesses / A47 work areas and 100m boundary around the cable logistics area (storage area for cable pulling phase). Heritage assets beyond these parameters are not included within this gazetteer. In addition, those heritage assets within the inter-tidal zone are included as part of Chapter 17 Offshore and Intertidal Archaeology and Cultural Heritage and are also omitted from this onshore related gazetteer.
