1 Socio-Economic Supporting Information

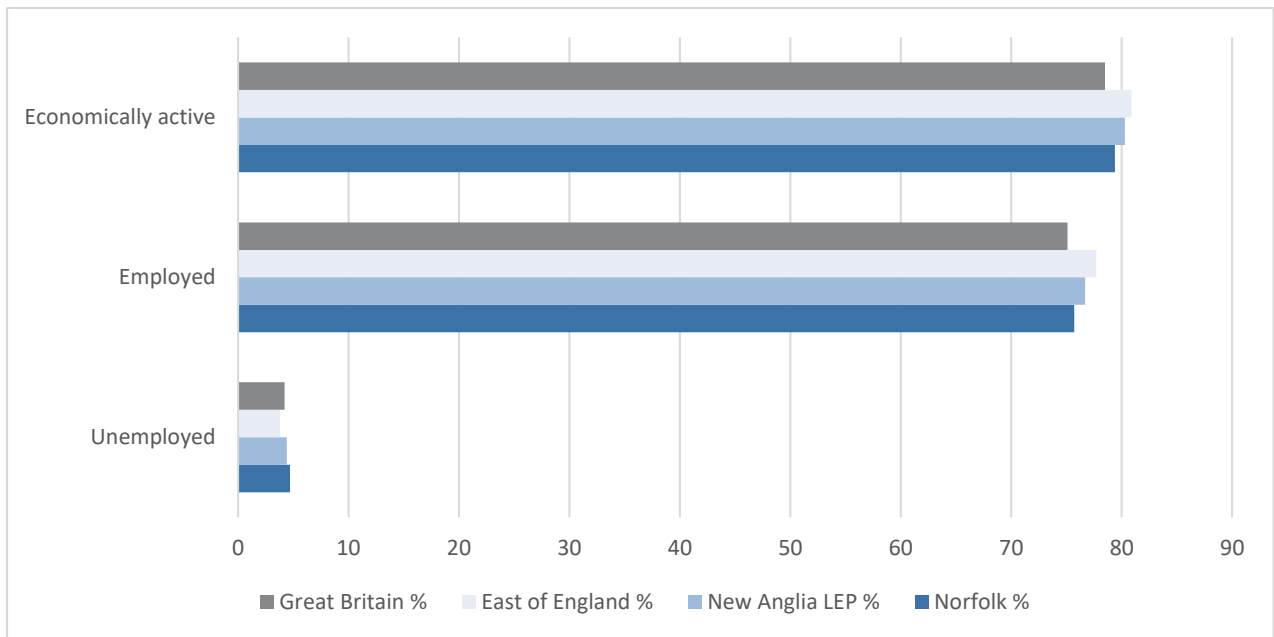

Plate 1.1 Distribution of unemployed, employed, and economically active people in Norfolk and the wider region (Source: NOMIS Labour Market Statistics)

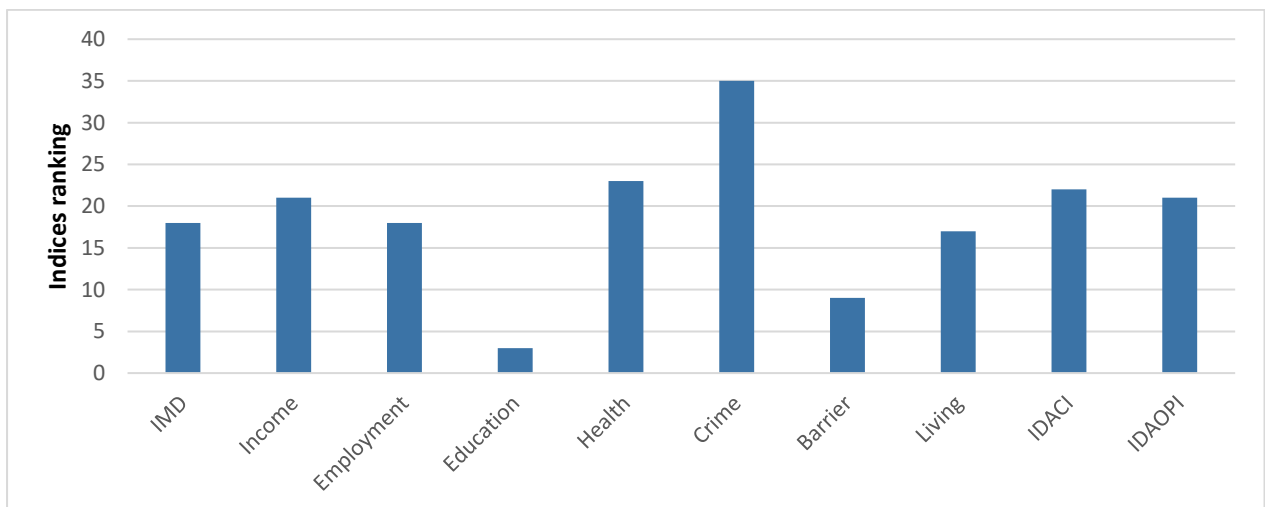

Plate 1.2 Deprivation rankings of the New Anglia LEP^{1 2 3} (Source: English Indices of Deprivation)

¹ The Index of Multiple Deprivation is a UK government qualitative study of deprived areas in English local councils. It is a comparative index and in this case it is provided as a combined index at a Local Enterprise Level. Note that a low rank indicates a high level of deprivation in comparison to the rest of the UK. Therefore, the crime ranking of 35 out of 39 shows that New Anglia LEP has the 35th lowest rank for crime rates out of 39 LEPs.

² The Income Deprivation Affecting Children Index (IDACI) is an index of deprivation used in the United Kingdom. The index is calculated by the Office of the Deputy Prime Minister and measures in a local area the proportion of children under the age of 16 that live in low income households.

³ The Income Deprivation Affecting Older People Index (IDAOPi) shows the proportion of older people in a small area that are living in pension credit (guarantee) households.

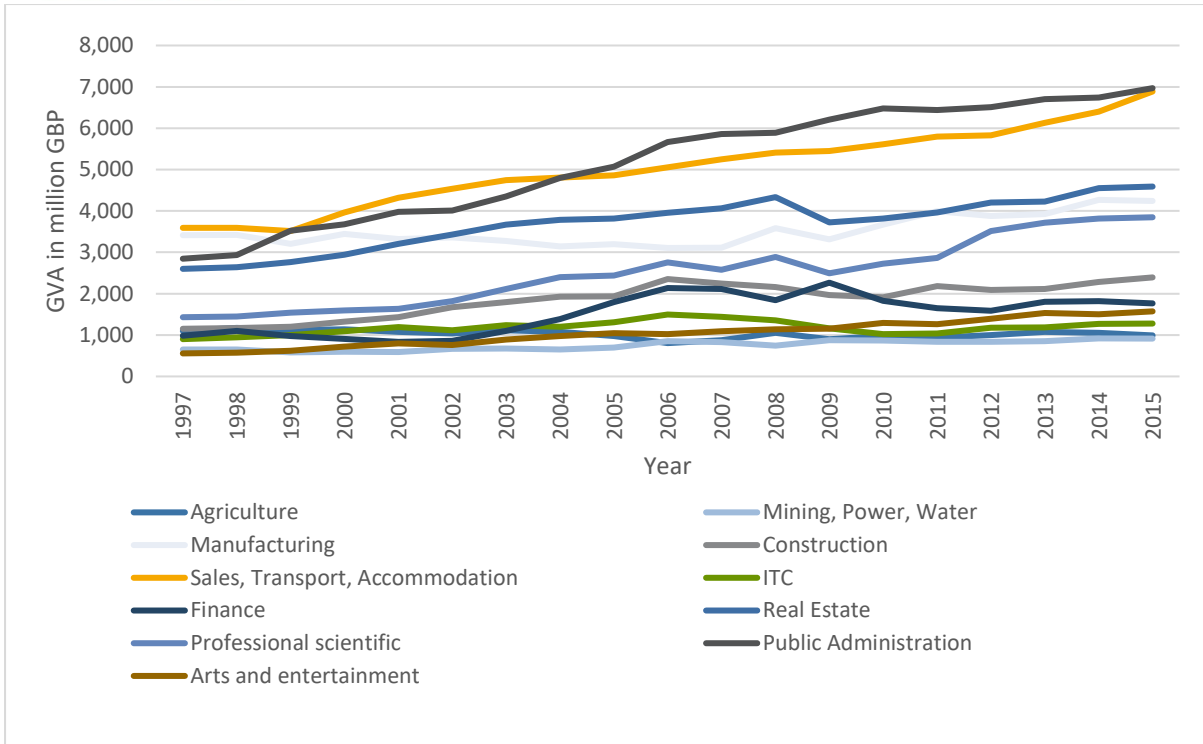

Plate 1.3 Trends in Gross Value Added for all sectors in the New Anglia LEP region (Source; Office for National Statistics)
