Dear Sir/madam,

I am the Norfolk County Councillor for the Reepham Division and Broadland District Councillor for Eynesford Ward.

I registered an interest and was engaged with the Inspectors on the two previous Windfarm cable projects both of which pass through and actually cross in my constituency, as will the Boreas cable.

Unfortunately due to circumstances beyond my control I missed the deadline to register an interest on your website for Boreas. This cable follows the same route, indeed the same trench as Vettenfall's previous application which is now with the Secretary of State. My concerns are around the cumulative effect of all these projects and in particular the traffic movements in and around Cawston, Salle, Oulton, etc.

I would be most grateful if you will allow me to register an interest and engage with the Inspector and the examination process.

Regards,
Greg Peck.

Norfolk County Council Cabinet Member for Commercial Services and Asset Management.
County Councillor for Reepham Division, Norfolk County Council.
District Councillor for Eynesford Ward, Broadland District Council.
