## 1 INTRODUCTION

---

### 1.1 Project Background

1. Norfolk Boreas Limited ('the Applicant', an affiliate company of Vattenfall Wind Power Limited (VWPL)) is seeking a Development Consent Order (DCO) for Norfolk Boreas, an offshore wind farm in the southern North Sea.

### 1.2 Purpose of the Statement of Commonality

2. This document provides the Examining Authority with an overview of the position of each Statement of Common Ground (SoCG) between the Applicant and the interested parties in relation to Norfolk Boreas at Deadline 2.
3. Throughout the Environmental Impact Assessment (EIA), the Applicant has coordinated an Evidence Plan Process (EPP) which provided a framework for consultation with the relevant stakeholders. Each SoCG reflects discussions which took place throughout the EPP, pre-submission consultation as well as the ongoing post-submission consultation.

#### 1.2.1 Structure

4. This report is structured as follows:
  - Section 2 Summary of commonality of each topic covered – provides an overview of all topics covered and each stakeholder's current position.
  - Section 3 Tables of commonality – this provides further detail on the aspects of each topic that are covered by the SoCG and each stakeholder's current position.

### 1.3 List of Statements of Common Ground

5. Table 1 provides the list of SoCGs that have been prepared by Norfolk Boreas and the respective regulative authority in accordance with the list as requested by the Planning Inspectorate in the Rule 8 letter issued in November 2019.

### 1.4 Summary of Current Position

6. The SoCGs submitted alongside this document at Deadline 2 reflect the final positions of the Applicant and stakeholders at the time of submission.
7. Table 1 provides an overview of the status of each SoCG throughout the examination.

## 2 SUMMARY OF COMMONALITY OF EACH TOPIC COVERED

---

8. This section provides a summary of the topics covered in each of the SoCG and shows where there is commonality in the topics or matters being discussed with the stakeholders.
9. Table 2 presents a summary of commonality at Deadline 2, on each of the topics discussed between the Applicant and the stakeholder using the following colour code.

	Matter agreed
	Matter to be discussed further
	Matter not agreed
	Topic not relevant to the stakeholder or deferred.

### 3 TABLES OF COMMONALITY

---

#### 3.1 Structure of SoCGs

10. The SoCGs identify matters on which parties agree and document the position of each party where agreement has not been reached.
11. Where applicable, and to ensure consistency in the approach taken to documenting matters agreed, matters subject to further negotiation or matters not agreed, generally each SoCG follows a standard format in order to provide clarity to other parties and the Examining Authority.
12. Each SoCG with EPP Stakeholders covers the following topics:
  - Environmental Impact Assessment
    - Existing Environment
    - Assessment Methodology
    - Assessment Findings
    - Cumulative Impact Assessment
  - Habitats Regulations Assessment (HRA) (where applicable)
    - Screening of Likely Significant Effect (LSE)
    - Assessment of Adverse Effect on Integrity (AEoI)
  - Mitigation and Management
    - Mitigation
    - Monitoring
13. Further SoCG have been prepared with relevant parties based on information in their relevant representations and/or topics raised during consultation.
14. The following sections provide further detail on the status of agreements in relation to the above items for each topic.
