---

Dear Sirs

As a resident of Cawston I wish to record my objections to the latest Highway Intervention Scheme proposed by Vattenfall Norfolk Boreas. The scheme as proposed will send 100s of HGVs through the narrow centre of our village at great danger to pedestrians, many of them school children. This is unacceptable and I urge you to reject this proposal.

I am certainly not against a national infrastructure for the power network and, of course, it has to affect someone. However the issues relating to Cawston specifically arise from an initial questionable decision to locate a staging site for the works in perhaps one of the most inaccessible parts of Norfolk for HGVs. A simple relocation from the Salle area to perhaps adjacent to the Reepham Road (which the route runs parallel to for part of the way) would resolve all of the issues.

Yours faithfully

Colin Jarry-Ryan
