We note that no decision has yet been reached about appeals for a delay of this project.

We have polled a number of members and residents, and many are dismayed that they will not be able to attend hearings, especially OFHs, and naturally their priorities have shifted, in respect to the Coronavirus and Government Guidelines, in fact a few of them are stuck in other parts of the country. Surely, with respect this situation is untenable?

There needs to be a delay in this examination in order to get things back on track, and this might in fact not cause any more of a delay that the coronavirus will, after all the panel and the Applicant must also be finding things very difficult, whilst having to obey the government guidelines.

As it is the governments (quite understandable) directives that are causing issues with people being able to have live discussions, we feel it is only right that the whole process be delayed by the government.

EN010079: Norfolk Vanguard Updates

Hi Necton Substation Action Group,

[The Secretary of State has received responses from the Applicant and other Interested Parties](#) to his [consultation letter dated 6 December 2019](#) by the 28 February 2020 deadline. The Secretary of State considers the information provided by the Applicant in response to those letters to contain new environmental information and invites comments from Interested Parties on the representations received. The new deadline for this is **27 April 2020**.

See [project page](#) for more information.
