Dear ExA

Please find below Historic England's answers to Deadline 2 in red below:-

Q6.4	The Applicant and Historic England	The ExA notes the explanation within Paragraph 14.3.14 of ES Chapter 14 [APP-043] that moderate or major effects are considered to be significant in terms of the ES though moderate effects or lower are considered to represent 'less than substantial harm' to the significance of a heritage asset in the terms of the National Planning Policy Framework. Can the Applicant clarify this approach and is this an approach that Historic England considers appropriate?	In the specific context of the proposed development and the assets concerned HE is content that this approach to reconciling between EIA and NPPF/NPS language is appropriate.
Q6.6	Historic England, Bassetlaw District Council and West Lindsey District Council	Is Historic England, Bassetlaw District Council and West Lindsey District Council satisfied that the five designated and non-designated heritage assets identified within ES Chapter 14 [APP-043] are the only ones with the potential to be affected?	We are content that assessment is sufficient and addresses those assets we highlighted in pre-application advice. We cannot certify the completeness of an applicant's work.
Q6.7	Historic England and Bassetlaw District Council	Are Historic England and Bassetlaw District Council satisfied that the significance of the five designated and non-designated heritage assets and their settings (which includes West Burton Medieval Deserted Village, Segelocom Roman Town, Bole Manor House, Church of St Martin in Bole and West Burton Power Station) identified in ES Chapter 14 [APP-043], and the effect of the Proposed Development on their significance, has been adequately assessed?	Yes
Q6.9	Historic England	Is Historic England satisfied with the approach of the Outline Written Scheme	Yes

		of Investigation [APP-143] in respect of archaeology?	

Yours sincerely

Tim Allen
