# West Burton C (Gas Fired Generating Station)

## The West Burton C (Generating Station) Order

Land to the north of the West Burton B Power Station,  
Nottinghamshire

### Schedule of Other Consents and Licences

---

Applicant: EDF Energy (Thermal Generation) Limited  
Date: March 2020

## DOCUMENT HISTORY

<b>DOCUMENT NUMBER</b>	4.2		
<b>Revision</b>	2		
<b>Author</b>	Susan Evans		
<b>Signed</b>		<b>Date</b>	March 2020
<b>Approved By</b>	Richard Lowe		
<b>Signed</b>		<b>Date</b>	March 2020
<b>Document Owner</b>	AECOM		

## Revision History

Item	Nature of revision	Rationale
13	Consent removed	As no surface water outfall is proposed for Work No. 5, this consent is not required.
14	Consent removed	The need for a Standard Rules Permit for temporary construction works within the construction laydown area in Flood Zone 1 was included in the Application on a precautionary basis. It has been agreed through the Statement of Common Ground with the Environment Agency, submitted at Deadline 1 (REP1-016), that that a Standard Rules Permit would not be required for temporary construction works within the Construction Laydown Area that may need to take place in Flood Zone 2, given the very small area affected (<1ha)
15	Status of consent updated	Refer to status column
16	Consent removed	It has been agreed with the Environment Agency, through the Statement of Common Ground submitted at Deadline 1 (REP1-016), that this consent will not be required given that works will not be taking place within 16m of the top bank of the River Trent.
17	Amendment to regulations cited	Refer to status column

18	Status of consent updated	Refer to status column
19	Status of consent updated	Refer to status column
20	Consent added	The potential need for a Natural England licence to interfere with badger setts for development purposes was acknowledged in the Application (including paragraph 9.5.9 of <b>APP-038</b> (Chapter 9: Ecology) and paragraph 5.1.3 of Confidential Appendix 9D: Badger Survey Report)but the need for this consent was inadvertently omitted from <b>APP-026 (Document 4.2)</b> and has now been added.

No.	Consent/Licence	Relevant Body	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
1.	Electricity Generation Licence - Section 6 of the Electricity Act 1989 (licences authorising supply, etc.)	Gas and Electricity Markets Authority	Required for the generation of electricity by the Proposed Power Plant (Work No. 1). EDF Energy (Thermal Generation) Limited has an existing Generation Licence.	Required prior to operation	Application to be submitted prior to commencement of construction	No action required at present
2.	Bilateral Connection Agreement for connection to National Grid 400 kV substation	National Grid Electricity Transmission Plc ('NGET')	Required for the Proposed Electrical Connection works (Work No.3) in respect of connection to NGET substation.	Required prior to operation	Application to be submitted prior to commencement of construction	No action required at present
3.	Application to Offer ('A2O') for connection to the National Transmission System	National Grid Gas Plc	Required in connection with the Proposed Gas Connection (Work No. 6).	Required prior to construction	Application to be submitted prior to commencement of construction	No action required at present
4.	Application for Non Obligated Gas Capacity	National Grid Gas Plc	Required in connection with the Proposed Gas Connection (Work No. 6).	Required prior to operation	Application to be submitted prior to commence construction	No action required at present
5.	Pipeline Safety Notification - The Pipeline Safety Regulations 1996 (Regulation 20)	The Health and Safety Executive (HSE)	Required in connection with the Proposed Gas Connection (Work No.6)	If required, prior to construction	The HSE will be notified a minimum of 6 months prior to commencement of construction of the Proposed Gas Pipeline	No action required at present
6.	Gas Safety Case - The Gas Safety (Management) Regulations 1996 (Regulation 3)	The Health and Safety Executive (HSE)	Required in connection with the Proposed Gas Connection (Work No. 6).	Required prior to construction	The Safety case will be submitted prior to commencement of construction of the Proposed Gas Connection.	No action required at present
7.	Notification of Construction Works - The Construction (Design and Management) Regulations 1994	The Health and Safety Executive	Required prior to the start of construction work on the Proposed Development, using the HSE F10 Form.	Required prior to construction	The HSE will be notified prior to the commencement of construction	No action required at present

No.	Consent/Licence	Relevant Body	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
8.	Greenhouse Gas Permit - Greenhouse Gas Emissions Trading Scheme Regulations 2012	The Environment Agency	Required for the emission of carbon dioxide from the Proposed Power Plant (Work No. 1).  The existing Greenhouse Gas Permit for the existing West Burton B gas-fired power station could be amended to cover the Proposed Power Plant.	Required prior to operation	Application to be submitted prior to commissioning of the Proposed Power Plant.	No action required at present
9.	Fire Notice - The Regulatory Reform (Fire Safety) Order 2005.	Local fire and rescue authority (the Health & Safety Executive has enforcement responsibility on construction sites)	Required in respect of work on construction sites.	Required prior to construction	Application to be submitted prior to the start of construction.	No action required at present
10.	Construction Noise Consent - Section 61 of The Control of Pollution Act 1974	Bassetlaw District Council	May be required during construction of the Proposed Development for certain activities.	May be required	Would be applied for during the construction phase for the Proposed Development, if required.	No action required at present
11.	Permit for Transport of Abnormal Loads -The Road Vehicles (Authorisation of Special Types) (General) Order 2003 or The Road Traffic Act 1988	VCA (the Executive Agency of the Department for Transport), Highways England and local highway authority (Nottinghamshire County Council)	Details for the provision of the management of Abnormal Loads and Abnormal Indivisible Loads ('AILs') are secured by a requirement within the DCO.	Required during construction	A permit(s) would be sought once the number and type of Abnormal Loads and AILs has been established following appointment of a contractor.	No action required at present
12.	Building Regulations Approval - The Building Regulations 2000 (as amended)	Bassetlaw District Council	Required in respect of buildings and structures forming part of the Proposed Development.	Required during construction	Buildings Regulations Approval would be sought prior to relevant works commencing.	No action required at present

No.	Consent/Licence	Relevant Body	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
13.	Land Drainage Consent – Sections 23 and 66 of The Land Drainage Act 1994 (prohibition on obstructions etc. in watercourses, known as land drainage consent)	Trent Valley Internal Drainage Board/Nottinghamshire County Council	Required for the Proposed surface water outfall connection if that is installed (Work No. 5)	May be required	Application to be submitted prior to relevant works commencing, if required	No action required at present
14.	Standard Rules Permit (SR2015 No.29- Temporary Storage within the floodplain of a main river) <a href="https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/513744/LIT_10435.pdf">https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/513744/LIT_10435.pdf</a>	The Environment Agency ('EA')		May be required	prior to commencement of construction	No action required at present.
15.	Environmental Permit - The Environmental Permitting (England and Wales) Regulations 2010	The Environment Agency	Required for the operation of the Proposed Power Plant (Work No. 1).  EDF Energy has agreed with the EA that this can take the form of a 'Substantial Variation' to the Environmental Permit for the existing West Burton B gas-fired power station.  This would also require a partial surrender of land from WBA to WBB.	Required prior to operation	The Environment Permit application was received by the Environment Agency on 15 May 2019.	The application for a substantial variation to the WBB Environmental Permit was Duly Made by the Environment Agency on 8 October 2019 and is currently being determined.
16.	Environmental Permit (Flood Risk Activities) – The Environmental Permitting (England and Wales) Regulations 2010	The Environment Agency	Required for works in, under, over or within 8 m of the top of the bank of a main river or within 16 m of the top of the bank of a tidal main river. Therefore, will be required	May be required	Application submission at least 2 months prior to start of construction, if required.	No action required at present

No.	Consent/Licence	Relevant Body	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
			for the Proposed surface water outfall connection if that is installed (Work No. 5)			
17.	European Protected Species Licence - The Conservation of Habitats and Species Regulations 2017 (as amended)	Natural England	<p>Required for any components of the Proposed Development that affect protected species.</p> <p>It is anticipated that translocation of some protected species may be required based on surveys undertaken to date.</p>	Prior to construction, if required	Application submitted prior to start of construction, if required.	No action required at present
18.	Great Crested Newt Mitigation Licence (The Conservation of Habitats and Species Regulations 2017 (as amended))	Natural England	Required for any components of the Proposed Development that affect these species	Required prior to construction	Application submitted prior to start of construction.	A draft GCN mitigation licence application submitted to Natural England during the examination of the application for development consent, Natural England has confirmed that they see no impediment to a licence being granted. A letter of no impediment issued on 28 November 2019 is submitted at Deadline 2.
19.	Environmental Permit Partial Surrender Application	The Environment Agency	Required in parallel with the Environment Permit Variation to surrender in part land from the	Required prior to operation	Submitted Q2 2019.	The application to partially surrender land was duly made by the Environment

No.	Consent/Licence	Relevant Body	Development Component	Requirement for Consent/Licence	Anticipated Submission Date/Timescales	Application Status/Action Required
			responsibility of WBA to WBB.			Agency on 18 September 2019. It is understood that the Environment Agency intends to issue the two varied permits for WBB and WBA at the same time, following determination, so that the surrendered land isn't unpermitted while the variation is being determined.
20	The Protection of Badgers Act, 1992 Badgers: licence to interfere with setts for development purposes	Natural England	Required for any components of the Proposed Development that affect these species	Prior to construction, if required	Application submitted prior to start of construction, if required. <a href="https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/823782/A24-interfere-badger-sett.pdf">https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/823782/A24-interfere-badger-sett.pdf</a>	No action required at present
