Dear Sir/Madam

PROPOSAL: Consultation from the Planning Inspectorate in relation to an environmental impact scoping report for the Tilbury Energy Centre
LOCATION: Tilbury Energy Centre

APPLICATION NUMBER: MC/17/4428

Re: Planning Act 2008 (as amended) and the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017(the EIA Regulations)-Regulation 10 and 11

Application by RWE Generation UK PLC (the Applicant) for an Order granting Development Consent for the Tilbury Energy Centre (the proposed Development)

Scoping consultation and notification of the Applicant's contact details and duty to make available information to the applicant if requested

I refer to your letter of 16 April 2018 and details of link provided to the associated documents and in response please see below Medway Council's response.

The proposal is unlikely to affect any of the Medway Council's AQMAs. However, the study zone and the air quality assessment model should include and assess air quality impacts with respect to residential receptors within the defined zone including the relevant receptors located in the Medway area.

The air quality assessment methodology shall follow relevant guidance documents (Defra, EA, IAQM) and predict against the relevant long term and short term air quality objectives.

Yours faithfully

Majid Harouni
Senior Planner
