Development Management

Applicant: Alison L Down

Our Ref: 17/4089/ENQ

E-Mail: dm@thurrock.gov.uk

Date: 15th September 2017

Dear Ms Down

Town and Country Planning Act 1990

Reference: 17/4089/ENQ

Proposal: Request for Council's views for an EIA Scoping Opinion for a gas fired Combined Heat and Power Plant (CHP Power Station) - Comments for Kemsley Paper Mill (K4) CHP Plant, comments to be made by the 14.09.2017

Location: Sites Outside Thurrock Borough Boundary

Further to the above reference and the consultation with regard to the EIA Scoping Opinion for a future Development Consent Order at the above site this Council provides comments as follows:

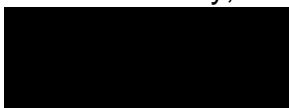

Given the distance from the site to the Thurrock Council Borough boundary the proposed development is not considered to result in any adverse impact upon this Borough and therefore no objections are raised.

With regard to the content of the EIA Scoping Opinion the list of environmental considerations would appear to cover the requirements for the Environmental Statement for this development and therefore no further information is identified from Thurrock Council.

I hope this information is of assistance.

Should you wish to contact the officer regarding this case please use the email address stated above.

Yours Sincerely,

Chris Purvis
Principal Planning Officer (Major Applications)
