

# Infrastructure Planning (Environmental Impact Assessment) (England and Wales) Regulations 2017

## ENVIRONMENTAL STATEMENT – MAIN REPORT

---

Client: D S Smith Paper Ltd  
Site: The Kemsley Mill K4 CHP Generating Station DCO  
Date: August 2018  
Reference: Document 3.1  
Editors: Tim Spicer  
BSc MSc PIEMA

# Contents

<b>1</b>	<b>INTRODUCTION</b>	
1.1	Background .....	1
1.2	Environmental Impact Assessment .....	1
1.3	ES Content .....	2
1.4	Other Documentation .....	3
1.5	The Consultant Team .....	3
1.6	ES Availability .....	4
1.7	Making representations on the application .....	5
<b>2</b>	<b>SITE DESCRIPTION AND PROPOSED DEVELOPMENT</b>	
2.1	Introduction .....	2-1
2.2	The Site and wider area .....	2-1
2.3	DS Smith Paper Ltd and Kemsley Paper Mill .....	2-1
2.4	The Proposed Development .....	2-2
2.5	Decommissioning of K1 .....	2-7
2.6	Ancillary facilities and services .....	2-7
2.7	Construction of the Proposed Development .....	2-9
2.8	Post construction .....	2-13
2.9	Decommissioning K4 .....	2-16
2.10	Alternatives and Primary Mitigation .....	2-17
<b>3</b>	<b>METHODOLOGY</b>	
3.1	Introduction .....	3-1
3.2	The scope of the EIA .....	3-1
3.3	Key issues identified in scoping .....	3-4
3.4	EIA assessment methodology – general approach .....	3-4
3.5	Determining the significance of effects in the ES .....	3-6
3.6	Identification of mitigation measures and significant effects .....	3-7
3.7	Cumulative effects .....	3-7
3.8	General format of the topic chapters .....	3-9
3.9	Assumptions and Limitations .....	3-10
<b>4</b>	<b>TRAFFIC AND TRANSPORT</b>	
4.1	Introduction .....	1
4.2	Regulatory and Policy Framework .....	1
4.3	Methodology .....	4
4.4	Baseline Conditions .....	11
4.5	Future Baseline .....	16
4.6	Predicted Effects .....	22
4.7	Decommissioning .....	28
4.8	Mitigation .....	28
4.9	Residual Effects .....	30
4.10	Cumulative Effects .....	30
4.11	Summary .....	30
	References .....	31
<b>5</b>	<b>AIR QUALITY</b>	
5.1	Purpose of this Chapter .....	1

5.2	Regulatory and Policy Framework .....	1
5.3	Assessment Methodology .....	5
5.4	Baseline Conditions .....	21
5.5	Future baseline.....	23
5.6	Predicted Effects .....	26
5.7	Decommissioning .....	34
5.8	Mitigation .....	34
5.9	Residual Effects .....	35
5.10	Cumulative Effects .....	35
5.11	Summary .....	38
	References .....	38

## 6 CLIMATE CHANGE

6.1	Purpose of this Chapter.....	1
6.2	Regulatory and Policy Framework .....	1
6.3	Assessment Methodology .....	9
6.4	Baseline Conditions .....	16
6.5	Future baseline.....	17
6.6	Predicted Effects .....	17
6.7	Mitigation .....	38
6.8	Residual Effects .....	19
6.9	Cumulative Effects .....	19
6.10	Summary .....	20
	References .....	28

## 7 NOISE & VIBRATION

7.1	Purpose of this Chapter.....	1
7.2	Regulatory and Policy Framework .....	1
7.3	Methodology .....	8
7.4	Baseline Conditions.....	13
7.5	Existing Noise Environment .....	14
7.6	Predicted Effects .....	15
7.7	Mitigation .....	25
7.8	Residual Effects .....	26
7.9	Cumulative Effects .....	26
7.10	Summary .....	28
	References .....	28

## 8 GROUND CONDITIONS

8.1	Introduction.....	1
8.2	Regulatory and Policy Framework .....	1
8.3	Methodology .....	4
8.4	Baseline Conditions.....	10

8.5	Future Baseline .....	21
8.6	Predicted Effects .....	22
8.7	Mitigation .....	32
8.8	Residual Effects .....	34
8.9	Cumulative Effects .....	34
8.10	Summary .....	34
	References .....	35

## 9 WATER ENVIRONMENT

9.1	Introduction .....	1
9.2	Regulatory and Policy Framework .....	1
9.3	Methodology .....	5
9.4	Baseline Conditions .....	13
9.5	Future baseline .....	20
9.6	Standard Mitigation Measures .....	20
9.7	Predicted Effects .....	22
9.8	Mitigation .....	30
9.9	Residual Effects .....	32
9.10	Cumulative Effects .....	32
	References .....	35

## 10 ECOLOGY

10.1	Introduction .....	1
10.2	Regulatory and Policy Framework .....	1
10.3	Methodology .....	5
10.4	Baseline Conditions .....	14
10.5	Future baseline .....	19
10.6	Predicted Effects – Construction .....	19
10.7	Decommissioning .....	35
10.8	Future Monitoring .....	35
10.9	Mitigation – Construction Phase .....	35
10.10	Mitigation – Operational Phase .....	35
10.11	Residual Effects .....	35
10.12	Cumulative Effects .....	36
	References .....	40

## 11 LANDSCAPE AND VISUAL IMPACT

11.1	Introduction .....	1
11.2	Regulatory and Policy Framework .....	1
11.3	Methodology .....	4
11.4	Baseline Conditions .....	10
11.5	Future baseline .....	26
11.6	Predicted Effects .....	27
11.7	Mitigation .....	38

11.8	Residual Effects .....	39
11.9	Cumulative Effects .....	39
11.10	Summary .....	42
	References .....	45

## 12 ARCHAEOLOGY & CULTURAL HERITAGE

12.1	Introduction .....	1
12.2	Regulatory and Policy Framework .....	1
12.3	Methodology .....	4
12.4	Baseline Conditions.....	14
12.5	Future baseline.....	18
12.6	Predicted Effects .....	20
12.7	Mitigation .....	30
12.8	Residual Effects .....	31
12.9	Cumulative Effects .....	31
12.10	Summary .....	31
	References .....	33

## 13 SUMMARY TABLES

## 14 GLOSSARY

<b>FIGURES</b>	
1.1	Site location Plan
2.1	Aerial view of the Site
2.2a-f	Designated sites in proximity to the Paper Mill
2.3	Plan showing the location of the Paper Mill's existing energy sources
2.4 a	Work No.1 - works plan with limits of deviation for vertical tube boiler
2.4b	Work No.1 - works plan with limits of deviation for horizontal tube boiler
2.5	Works Plans - Key Plan
2.6a	Illustrative layout with horizontal tube boiler
2.6b	Illustrative layout with vertical tube boiler
2.7-2.10	3D CGI's showing how K4 is intended to look in the context of the existing Paper Mill.
2.11	Infographic showing the key stages of the CHP process
2.12	Plan showing the location of tie-ins to existing site facilities
3.2	A plan showing the location and description of cumulative sites and projects considered in the ES
4.1	Access to the Mill
5.1	Wind rose diagrams
5.2	Sensitive receptors (air quality)
5.3	99.79th percentile Hourly-mean NO <sub>2</sub> Process Contributions (µg.m-3)
5.4	Maximum 8-hour Running Mean CO Process Contributions (µg.m-3)
5.5	Annual-mean NO <sub>2</sub> Process Contributions (µg.m-3)
7.1	Noise Prediction Locations
7.2	Noise Survey Locations
7.3	Construction Noise Contour
7.4	Operational Noise Contour – Normal Operation

<b>7.5</b>	Operational Noise Contour – Normal Operation and Dump Condensers
<b>7.6</b>	Operational Noise Contour – Normal Operation and Steam Release Valves
<b>8.1</b>	Plan showing the location of previous ground investigations in proximity to the Site
<b>10.1a-m</b>	Designated sites location plans
<b>10.2a</b>	Protected species distributions - amphibians and reptiles
<b>10.2b</b>	Protected species distributions - birds
<b>10.2c</b>	Protected species distributions - Flora
<b>10.2d</b>	Protected species distributions - Invertebrates
<b>10.2e</b>	Protected species distributions - bats
<b>10.2f</b>	Protected species distributions - Mammals
<b>10.3</b>	Phase 1 habitat survey map
<b>10.4</b>	Breeding bird territories
<b>10.5</b>	Construction noise contours and birds
<b>11.1</b>	Z one of theoretical I visibility (Z T V ) within a 10 km radius study area
<b>11.2</b>	Aerial context photo of the Site
<b>11.3</b>	Landscape and relevant designations and national landscape character
<b>11.4</b>	Z one of Theoretical I Visibility (Z T V ) and photographic viewpoint location
<b>11.5-10</b>	Existing views of the site
<b>11.11</b>	Landscape character areas of the Swale District
<b>11.12-17</b>	CGI viewpoints of the Paper Mill with K4
<b>12.1</b>	Existing view towards the site
<b>12.2</b>	Designated heritage assets in proximity to the site

## **TECHNICAL APPENDICES**

<b>Appendix 1.1</b>	ES Author CVs
<b>Appendix 2.1</b>	Outline CEMP
<b>Appendix 3.1</b>	Scoping Report
<b>Appendix 3.2</b>	PINS Scoping Opinion
<b>Appendix 3.3</b>	Response to the PINS Scoping Opinion
<b>Appendix 3.4</b>	S42 Consultation Letter
<b>Appendix 3.5</b>	Response to S42 Consultation
<b>Appendix 4.1</b>	Transport Assessment
<b>Appendix 4.2</b>	5 year personal injury accident plan
<b>Appendix 4.3</b>	2019 Baseline link flows (2019 base + committed)
<b>Appendix 4.4</b>	Average and Peak Construction Traffic Link Flows
<b>Appendix 4.5</b>	2019 Baseline + Average and Peak Construction Traffic Link Flows
<b>Appendix 4.6</b>	2019 Cumulative link flows (2019 Baseline + cumulative + average and peak constructon)
<b>Appendix 5.1</b>	Air Quality Consultation
<b>Appendix 5.2</b>	Construction Dust assessment methodology
<b>Appendix 5.3</b>	Stack Height Determination
<b>Appendix 5.4</b>	Air Quality assessment of ecological impacts
<b>Appendix 6.1</b>	Greenhouse gas calculations
<b>Appendix 7.1</b>	Noise Baseline Survey Results
<b>Appendix 8.1</b>	Ground conditions Desk Study and Preliminary Risk Assessment

---

<b>Appendix 9.1</b>	Flood Risk Assessment
<b>Appendix 9.2</b>	Environment Agency Flood Risk Data
<b>Appendix 10.1</b>	Consultation with KCC Ecology
<b>Appendix 10.2</b>	No Significant Effects HRA Report
<b>Appendix 11.1</b>	Correspondence with KCC Landscape
<b>Appendix 12.1</b>	Desk Based Baseline Heritage Assessment
