Dear Sir/Madam

The Infrastructure Planning (Examination Procedure) Rules 2010 (as amended)

Application by Drax Power Ltd for an Order Granting Development Consent for the Drax Re-power Project

Examining Authority's Agenda for Open Floor Hearing 2 (OFH2)

Further to the procedural decision and timetable enclosed with our Rule 8 letter of 6 November 2018 notifying you of the times, dates and locations associated with the Examination of this application, the Examining Authority (ExA) is now providing its agenda for the OFH to be held at the Goole Leisure Centre, North Street, Goole DN14 5QX, from 3.00pm on Tuesday 4 December 2018. The agenda included at **Annex A**, identifies the Applicant (Drax Power Limited) and other Interested Parties (IPs) that the ExA invites to attend the OFH.

Planning Inspectorate staff will be available at the venue for half an hour before the hearing commences. It is helpful if intending participants make themselves known to staff during this time. The OFH will be open to the public and anyone wishing to attend to observe may do so.

The examination timetable provides for the possible holding of a further OFH on Tuesday 12 February 2019. If the ExA decides to proceed with these further hearings, we will write to you separately to provide formal notice.

Agendas for any further hearings that we might hold would be provided for at least one week in advance of such Hearings and published on the project page for the Drax Re-power Project of the National Infrastructure website, which can be accessed via the following link:

This communication does not constitute legal advice.
Please view our [Privacy Notice](#) before sending information to the Planning Inspectorate.

If you have any further queries, please do not hesitate to contact the case team using the above address, email address or telephone number.

Yours faithfully

Richard Allen

Lead Member of the Panel of Examining Inspectors

Annex A Agenda for the Open Floor Hearing 2 (OFH2)

ANNEX A

Drax Re-power Project - Open Floor Hearing 2 (OFH2)

This document sets out the agenda for the OFH2 which the Examining Authority (ExA) notified all Interested Parties (IPs) of in our Rule 8 letter of 6 November 2018.

Date: 4 December 2018
Time: 3.00pm, room opens from 2.30pm
Venue: **Goole Leisure Centre,**
North Street,
Goole
DN14 5QX

Access and Parking: Full disabled access. There is a large public car park with free parking

Purpose of the Open Floor Hearing

The OFH is held to discharge the ExA's duty to IPs who request to be heard.

The principle purpose of the OFH is to hear from IPs, specifically members of the public and others, who wish to speak more generally about issues of concern.

For those IPs who wish to participate in a more detailed discussion of specific subject matters, the ExA advises that the appropriate forum for this is the Issue Specific Hearing (ISH) on Environmental Issues, which IPs will note is to be held on the following day, Wednesday 5 December 2018; an agenda for this ISH has been published on the project page for the Drax Re-power Project of the National Infrastructure website, which can be accessed via the following link:

<https://infrastructure.planninginspectorate.gov.uk/projects/yorkshire-and-the-humber/drax-re-power/?ipcsection=overview>

Participation, conduct and management of hearing

All IPs who wish to make oral representations are invited to participate in the hearing, attending at the appointed start time of 3.00pm. Participation is subject to the ExA's power to control the hearing. However, this hearing does not have a subject matter controlled agenda and participants may bring up any matter arising from the application that is also important and relevant to a decision taken under the Planning Act 2008 (as amended) (PA2008).

The request for the OFH has been made by Biofuelwatch and Friends of the Earth.

The ExA requests that the Applicant attends the hearing. The Applicant may be asked by or through the ExA to address questions raised by any IPs and will be provided with an opportunity to respond to IPs written and oral cases.

Participants may be legally represented if they wish, but the hearing will be conducted to ensure that legal representation is not required. The Applicant and IPs may attend with expert advisers, but IPs may participate without expert advice. The ExA may

impose a time limit on speakers. This will be dependent on the numbers of IPs who wish to speak.

Guidance under the PA2008 and the Infrastructure Planning (Examination Procedure) Rules 2010 provide that it is the ExA that will probe, test and assess the evidence through direct questioning of persons making oral representations at hearings. Questioning at the hearing will be led by the ExA.

Cross-questioning of the person giving evidence by another person will only be permitted if the ExA decides it is necessary to ensure representations are adequately tested or that a person has had a fair chance to put their case. IPs should note that it is not normal procedure at an OFH for an ExA to permit the cross-questioning of an unrepresented IP by the Applicant or the Applicant's representatives.

The agenda may be amended by the ExA at the start of the hearing session. Furthermore, the ExA may wish to raise matters arising from oral submissions, RRs and Written Representations, and pursue lines of inquiry in the course of the discussion which are not listed on the agenda.

The OFH will run until all IPs have made their oral representations and responded to the ExA's exploration of the matters arising from them, and for the Applicant to have been given an opportunity to respond.

If, after ten minutes upon opening of the OFH, no IPs have attended, the ExA is entitled to conclude that none wish to make any oral address, and the ExA may then close the hearing with immediate effect.
