Thurrock Power Flexible Generation Plant Feedback Form

Please give your views

Thurrock Power Limited ('Thurrock Power') is carrying out public consultation on the proposed Thurrock Power Flexible Generation Plant development (the 'proposed development') from 16th October 2018 to 14th November 2018. We would very much like to hear from you with your views on the proposed development and any feedback you give will be considered when finalising the design. More information about the proposed development can be found:

1. In the accompanying letter if you received this form by post
2. Online at: www.thurrockpower.co.uk
3. At the following public consultation exhibitions:

Location	Venue	Date	Time
Gravesend	The Court Room, Gravesend Old Town Hall, High Street, Gravesend, DA11 0AZ	Tuesday 16th October 2018	11am to 8pm
West Tilbury	West Tilbury Village Hall, Rectory Road, West Tilbury, RM18 8UD	Tuesday 23rd October 2018	11am to 8pm
Tilbury Hub	Tilbury Hub, 16 Civic Square, Tilbury, RM18 8ZZ	Friday 2nd November 2018	11am to 8pm
Linford	Linford Village Hall, Lower Crescent, Linford, SS17 0QP	Wednesday 7th November 2018	11am to 5.30pm

If you have any questions, would like this form in a different format or need assistance in giving your views, please telephone us on: 0207 1860580 or email us at: contact@thurrockpower.co.uk

It would be very helpful if you could answer the questions below: (Place a tick in the applicable box)

Had you heard of the Thurrock Power Flexible Generation Plant project before today?

Yes

☐

No

☒

Are you completing this form:

At an event

☐

Online

☒

4. Your Feedback

A feedback form is enclosed with this letter. Feedback forms will also be available at the public exhibitions, on the project website and at the deposit locations within the consultation zone listed above, or by telephoning, emailing or writing to us using the details in paragraph 3, above. We encourage you to complete and return this form by email or by Freepost to allow you to have your say about the proposed development. Alternatively, you can simply write to us by email or Freepost with your comments.

If you are able to attend one of the public consultation exhibitions, members of the Thurrock Power project team will be present to answer any questions you may have. Copies of the 'have your say' document and feedback forms will also be available for you to take away with you, along with DVD copies of the PEIR.

We will take your comments into account and explain how we have done so in a Consultation Report, which will be submitted with our application for Development Consent once the consultation process has been completed.

Please note that all responses and feedback forms must be received by Thurrock Power by the closing date of 14th November 2018. We cannot guarantee that feedback received after this date will be considered.

5. Other Schemes in the Area

You may be aware of National Grid's major substation on Tilbury Marshes, which has provided the grid connection for Tilbury power station in the past. This connection point remains in place as a critical National Grid facility on the electricity network. This is why RWE has located its Tilbury Energy Centre and Thurrock Power its flexible electricity plant, near to this substation. The two schemes are independent of each other but in many respects are complimentary and will do much to provide resilience to the electricity system.

We recognise that there is a lot of development going on in the area alongside these two proposed energy projects, not least the Tilbury 2 port development, the proposed Lower Thames Crossing and the Government pushing for more land for housing. We have therefore made sure that we understand what all these developments mean together and what our proposal adds to the potential impact.

Thank you for taking the time to read this. We hope it gives you a little of the background to our proposed scheme but, more importantly, a way to obtain further information and provide your feedback.

Finally, please note: requests for information about the proposed development in other formats (for example, large print or braille) will be considered upon request.

Yours sincerely

Andrew Troup
Director | Statera Energy Limited

Encs. Feedback Form

Blank Envelope to be used with Freepost Address: Freepost THURROCK POWER

The sources of energy used across the UK are becoming more diverse with renewable energy such as wind, wave and solar power helping to reduce reliance on fossil fuels and create a less polluting power supply. This makes the energy supply less predictable and we need to find ways to store the energy so it can be released when it is most needed. The Thurrock Power Flexible Generation Plant will provide this flexibility with its gas engines and allow energy to be stored in batteries and released into the electricity network when demand for energy is at its peak, thus creating a more stable electricity supply. This is particularly important in London and the surrounding areas due to population density.

Please provide any comments you have relating to the proposed development, as indicated below.

Do you have any comments to make on the potential benefits and/or impacts of the proposed development?

SAD TO USE LIMITED SOURCE OF ENERGY, GAS, TO SUPPLY VITAL ENERGY, ELECTRICITY. IS IT NOT POSSIBLE TO TAP OUR ENDLESS SOURCE OF POWER, - THE RIVER THAMES? I'M SURE ITS CONSTANT MOVEMENT, ONE WAY OR THE OTHER, COULD BE TAPPED WITH ROTATING "VANE WHEELS", HALF "POINTING" EAST, HALF WEST, TO CAPTURE THE TIDE IN BOTH DIRECTIONS, NOT TO "SCALE" THE RIVER OF COURSE, BUT EVEN SAY, 50 METRES OF TURBINE WOULD SURELY GIVE GREAT BENEFIT. THIS MAY SEEM CRAZY - BUT WORTH A THOUGHT. ~~0000~~ ~~AWAY~~ Q1A BIG EXPENSE SHORT TERM, Q1B HUGE BENEFIT LONG TERM

Do you have any comments on the information provided in 'have your say' and/or Preliminary Environmental Information Report?

Do you have any other general comments you would like to make about the proposed development or this consultation process? (Please continue on a separate sheet of paper if more space is required and fix this securely to your form before returning it to us)

To help us understand feedback in more detail, please indicate whether you are (please tick all that apply to you):

A resident in the local area (if so, please give your postcode)	<input checked="" type="checkbox"/>
Employed in a local business	<input type="checkbox"/>
Owner of a local business	<input type="checkbox"/>
Owner of land connected with the proposed development	<input type="checkbox"/>
A tourist or visitor to the area	<input type="checkbox"/>
Giving feedback on behalf of an organisation (if so, please give the name of the organisation)	<input type="checkbox"/>

THANK YOU VERY MUCH FOR YOUR FEEDBACK

The information you provide on this form will be processed by Thurrock Power Limited. A summary of findings from the consultation will be published on line and shared with statutory authorities. Summary findings will be reported anonymously and will not identify individuals. Your personal details, if given, will be held by Thurrock Power Limited in accordance with the relevant current data protection legislation and will be used by Thurrock Power or their appointed agents solely to communicate with you about this consultation process and subsequent planning application. It is helpful if you would provide your personal details for this purpose, but if you prefer to remain anonymous you may leave this section blank. If you are responding on behalf of an organisation, the organisation may be named in the Consultation Report which will accompany our application for development consent.

Name..... JOHN PRICE

Job Title (if responding on behalf of an organisation).....

Address..... [REDACTED]

..... [REDACTED]

This is particularly important in London and the surrounding areas due to population density.

Please provide any comments you have relating to the proposed development, as indicated below.

Do you have any comments to make on the potential benefits and/or impacts of the proposed development?

No potential issues should the existing power station land to be used. If there is a requirement for more land or disruption to public space, I would have some extreme concerns.

Do you have any comments on the information provided in 'have your say' and/or Preliminary Environmental Information Report?

Not seen it yet

Do you have any other general comments you would like to make about the proposed development or this consultation process? (Please continue on a separate sheet of paper if more space is required and fix this securely to your form before returning it to us)

More information please. Sending out a feedback form with no info available is a bit poor.

To help us understand feedback in more detail, please indicate whether you are (please tick all that apply to you):

A resident in the local area (if so, please give your postcode)	<input checked="" type="checkbox"/>
Employed in a local business	<input type="checkbox"/>
Owner of a local business	<input type="checkbox"/>
Owner of land connected with the proposed development	<input type="checkbox"/>
A tourist or visitor to the area	<input type="checkbox"/>
Giving feedback on behalf of an organisation (if so, please give the name of the organisation)	<input type="checkbox"/>

THANK YOU VERY MUCH FOR YOUR FEEDBACK

The information you provide on this form will be processed by Thurrock Power Limited. A summary of findings from the consultation will be published on line and shared with statutory authorities. Summary findings will be reported anonymously and will not identify individuals. Your personal details, if given, will be held by Thurrock Power Limited in accordance with the relevant current data protection legislation and will be used by Thurrock Power or their appointed agents solely to communicate with you about this consultation process and subsequent planning application. It is helpful if you would provide your personal details for this purpose, but if you prefer to remain anonymous you may leave this section blank. If you are responding on behalf of an organisation, the organisation may be named in the Consultation Report which will accompany our application for development consent.

If you are completing this form at a public exhibition, please hand the completed form to a member of our team. If you received this form in the post please return it to us using the blank envelope provided and the Freepost address: Freepost THURROCK POWER

The deadline for giving your feedback is 11.59pm on 14th November 2018. Responses must be received by this time to guarantee they are given consideration.

Thurrock Power Limited

Thurrock Power Flexible Generation Plant Feedback Form

Please give your views

Thurrock Power Limited ('Thurrock Power') is carrying out public consultation on the proposed Thurrock Power Flexible Generation Plant development (the 'proposed development') from 16th October 2018 to 14th November 2018. We would very much like to hear from you with your views on the proposed development and any feedback you give will be considered when finalising the design. More information about the proposed development can be found:

1. In the accompanying letter if you received this form by post
2. Online at: www.thurrockpower.co.uk
3. At the following public consultation exhibitions:

Location	Venue	Date	Time
Gravesend	The Court Room, Gravesend Old Town Hall, High Street, Gravesend, DA11 0AZ	Tuesday 16th October 2018	11am to 8pm
West Tilbury	West Tilbury Village Hall, Rectory Road, West Tilbury, RM18 8UD	Tuesday 23rd October 2018	11am to 8pm
Tilbury Hub	Tilbury Hub, 16 Civic Square, Tilbury, RM18 8ZZ	Friday 2nd November 2018	11am to 8pm
Linford	Linford Village Hall, Lower Crescent, Linford, SS17 0QP	Wednesday 7th November 2018	11am to 5.30pm

If you have any questions, would like this form in a different format or need assistance in giving your views, please telephone us on: 0207 1860580 or email us at: contact@thurrockpower.co.uk

It would be very helpful if you could answer the questions below: (Place a tick in the applicable box)

Had you heard of the Thurrock Power Flexible Generation Plant project before today?

Yes

☐

No

☒

4. Your Feedback

A feedback form is enclosed with this letter. Feedback forms will also be available at the public exhibitions, on the project website and at the deposit locations within the consultation zone listed above, or by telephoning, emailing or writing to us using the details in paragraph 3, above. We encourage you to complete and return this form by email or by Freepost to allow you to have your say about the proposed development. Alternatively, you can simply write to us by email or Freepost with your comments.

If you are able to attend one of the public consultation exhibitions, members of the Thurrock Power project team will be present to answer any questions you may have. Copies of the 'have your say' document and feedback forms will also be available for you to take away with you, along with DVD copies of the PEIR.

We will take your comments into account and explain how we have done so in a Consultation Report, which will be submitted with our application for Development Consent once the consultation process has been completed.

Please note that all responses and feedback forms must be received by Thurrock Power by the closing date of 14th November 2018. We cannot guarantee that feedback received after this date will be considered.

5. Other Schemes in the Area

You may be aware of National Grid's major substation on Tilbury Marshes, which has provided the grid connection for Tilbury power station in the past. This connection point remains in place as a critical National Grid facility on the electricity network. This is why RWE has located its Tilbury Energy Centre and Thurrock Power its flexible electricity plant, near to this substation. The two schemes are independent of each other but in many respects are complimentary and will do much to provide resilience to the electricity system.

We recognise that there is a lot of development going on in the area alongside these two proposed energy projects, not least the Tilbury 2 port development, the proposed Lower Thames Crossing and the Government pushing for more land for housing. We have therefore made sure that we understand what all these developments mean together and what our proposal adds to the potential impact.

Thank you for taking the time to read this. We hope it gives you a little of the background to our proposed scheme but, more importantly, a way to obtain further information and provide your feedback.

Finally, please note: requests for information about the proposed development in other formats (for example, large print or braille) will be considered upon request.

Yours sincerely

Andrew Troup
Director | Statera Energy Limited

Encs. Feedback Form

Blank Envelope to be used with Freepost Address: Freepost THURROCK POWER

The sources of energy used across the UK are becoming more diverse with renewable energy such as wind, wave and solar power helping to reduce reliance on fossil fuels and create a less polluting power supply. This makes the energy supply less predictable and we need to find ways to store the energy so it can be released when it is most needed. The Thurrock Power Flexible Generation Plant will provide this flexibility with its gas engines and allow energy to be stored in batteries and released into the electricity network when demand for energy is at its peak, thus creating a more stable electricity supply. This is particularly important in London and the surrounding areas due to population density.

Please provide any comments you have relating to the proposed development, as indicated below.

Do you have any comments to make on the potential benefits and/or impacts of the proposed development?

Do you have any comments on the information provided in 'have your say' and/or Preliminary Environmental Information Report?

Do you have any other general comments you would like to make about the proposed development or this consultation process? (Please continue on a separate sheet of paper if more space is required and fix this securely to your form before returning it to us)

To help us understand feedback in more detail, please indicate whether you are (please tick all that apply to you):

A resident in the local area (if so, please give your postcode)	
Employed in a local business	
Owner of a local business	
Owner of land connected with the proposed development	
A tourist or visitor to the area	
Giving feedback on behalf of an organisation (if so, please give the name of the organisation)	

THANK YOU VERY MUCH FOR YOUR FEEDBACK

The information you provide on this form will be processed by Thurrock Power Limited. A summary of findings from the consultation will be published on line and shared with statutory authorities. Summary findings will be reported anonymously and will not identify individuals. Your personal details, if given, will be held by Thurrock Power Limited in accordance with the relevant current data protection legislation and will be used by Thurrock Power or their appointed agents solely to communicate with you about this consultation process and subsequent planning application. It is helpful if you would provide your personal details for this purpose, but if you prefer to remain anonymous you may leave this section blank. The sources of energy used across the UK are becoming more diverse with renewable energy such as wind, wave and solar power helping to reduce reliance on fossil fuels and create a less polluting power supply. This makes the energy supply less predictable and we need to find ways to store the energy so it can be released when it is most needed. The Thurrock Power Flexible Generation Plant will provide this flexibility with its gas engines and allow energy to be stored in batteries and released into the electricity network when demand for energy is at its peak, thus creating a more stable electricity supply. This is particularly important in London and the surrounding areas due to population density.

Please provide any comments you have relating to the proposed development, as indicated below.

Do you have any comments to make on the potential benefits and/or impacts of the proposed development?

The impact is that it is using valuable green belt and flood plains so is Environmentally Negative to the area surrounding these proposals.

There would be noise pollution during construction and also when the engines are running after completion.

There are no jobs for locals either.

Do you have any comments on the information provided in 'have your say' and/or Preliminary Environmental Information Report?

Your Consultation process is flawed as not all houses in the impact area were sent notification letters. (We did not!) Although we found out about this in the local paper, you can not assume everyone receives a paper.

Your disc is not very user friendly as it jumps information from book to book.

The Consultation period is far too short for something so impacting to the area.

Do you have any other general comments you would like to make about the proposed development or this consultation process? (Please continue on a separate sheet of paper if more space is required and fix this securely to your form before returning it to us)

You have not provided detailed plans and drawings as to how this would look.

How are you going to get access across the railway?

How is this going to affect the health of the people of Tilbury with the increase of dust particles, NO_2 and SO_2 into the air.

The sample readings taken in Sandhurst Road are not showing ^{graphs} or pictures as to where exactly the readings were taken

To help us understand feedback in more detail, please indicate whether you are (please tick all that apply to you):

A resident in the local area (if so, please give your postcode)	██████████	<input checked="" type="checkbox"/>

The sources of energy used across the UK are becoming more diverse with renewable energy such as wind, wave and solar power helping to reduce reliance on fossil fuels and create a less polluting power supply. This makes the energy supply less predictable and we need to find ways to store the energy so it can be released when it is most needed. The Thurrock Power Flexible Generation Plant will provide this flexibility with its gas engines and allow energy to be stored in batteries and released into the electricity network when demand for energy is at its peak, thus creating a more stable electricity supply. This is particularly important in London and the surrounding areas due to population density.

Please provide any comments you have relating to the proposed development, as indicated below.

Do you have any comments to make on the potential benefits and/or impacts of the proposed development?

Sounds a sensible project for today's variable power supply.

Do you have any comments on the information provided in 'have your say' and/or Preliminary Environmental Information Report?

The proposed site seems reasonable.

Do you have any other general comments you would like to make about the proposed development or this consultation process? (Please continue on a separate sheet of paper if more space is required and fix this securely to your form before returning it to us)

The Tilbury Fort needs to be safeguarded and indeed enhanced amidst all future development in this area.

The past, present and future are all important.

To help us understand feedback in more detail, please indicate whether you are (please tick all that apply to you):

A resident in the local area (if so, please give your postcode)	[REDACTED]	<input checked="" type="checkbox"/>
Employed in a local business		<input type="checkbox"/>

Owner of land connected with the proposed development		<input type="checkbox"/>
A tourist or visitor to the area		<input type="checkbox"/>
Giving feedback on behalf of an organisation (if so, please give the name of the organisation)		<input type="checkbox"/>

THANK YOU VERY MUCH FOR YOUR FEEDBACK

The information you provide on this form will be processed by Thurrock Power Limited. A summary of findings from the consultation will be published on line and shared with statutory authorities. Summary findings will be reported anonymously and will not identify individuals. Your personal details, if given, will be held by Thurrock Power Limited in accordance with the relevant current data protection legislation and will be used by Thurrock Power or their appointed agents solely to communicate with you about this consultation process and subsequent planning application. It is helpful if you would provide your personal details for this purpose, but if you prefer to remain anonymous you may leave this section blank. If you are responding on behalf of an organisation, the organisation may be named in the Consultation Report which will accompany our application for planning permission.

Name..... PETER HARTLEY

Job Title (if responding on behalf of an organisation)..... [REDACTED]

Address..... [REDACTED]

Postcode..... [REDACTED]

Email Address..... [REDACTED]

Please tick this box if you would like to receive update emails:

☐

If you are completing this form at a public exhibition, please hand the completed form to a member of our team. If you received this form in the post please return it to us using the blank envelope provided and the Free Post address: THURROCK POWER

The deadline for giving your feedback is 11.59pm on 14th November 2018. Responses must be received by this time to guarantee they are given consideration.

Thurrock Power Limited

Thurrock Power Flexible Generation Plant Feedback Form

Please give your views

Thurrock Power Limited ('Thurrock Power') is carrying out public consultation on the proposed Thurrock Power Flexible Generation Plant development (the 'proposed development') from 16th October 2018 to 14th November 2018. We would very much like to hear from you with your views on the proposed development and any feedback you give will be considered when finalising the design. More information about the proposed development can be found:

1. In the accompanying letter if you received this form by post
2. Online at: www.thurrockpower.co.uk
3. At the following public consultation exhibitions:

Location	Venue	Date	Time
Gravesend	The Court Room, Gravesend Old Town Hall, High Street, Gravesend, DA11 0AZ	Tuesday 16th October 2018	11am to 8pm
West Tilbury	West Tilbury Village Hall, Rectory Road, West Tilbury, RM18 8UD	Tuesday 23rd October 2018	11am to 8pm
Tilbury Hub	Tilbury Hub, 16 Civic Square, Tilbury, RM18 8ZZ	Friday 2nd November 2018	11am to 8pm
Linford	Linford Village Hall, Lower Crescent, Linford, SS17 0QP	Wednesday 7th November 2018	11am to 5.30pm

If you have any questions, would like this form in a different format or need assistance in giving your views, please telephone us on: 0207 1860580 or email us at: contact@thurrockpower.co.uk

It would be very helpful if you could answer the questions below: (Place a tick in the applicable box)

Had you heard of the Thurrock Power Flexible Generation Plant project before today?

Yes ☐ No ☒

Are you completing this form:

At an event ☐ Online ☐ By post ☒

4. Your Feedback

A feedback form is enclosed with this letter. Feedback forms will also be available at the public exhibitions, on the project website and at the deposit locations within the consultation zone listed above, or by telephoning, emailing or writing to us using the details in paragraph 3, above. We encourage you to complete and return this form by email or by Freepost to allow you to have your say about the proposed development. Alternatively, you can simply write to us by email or Freepost with your comments.

If you are able to attend one of the public consultation exhibitions, members of the Thurrock Power project team will be present to answer any questions you may have. Copies of the 'have your say' document and feedback forms will also be available for you to take away with you, along with DVD copies of the PEIR.

We will take your comments into account and explain how we have done so in a Consultation Report, which will be submitted with our application for Development Consent once the consultation process has been completed.

Please note that all responses and feedback forms must be received by Thurrock Power by the closing date of 14th November 2018. We cannot guarantee that feedback received after this date will be considered.

5. Other Schemes in the Area

You may be aware of National Grid's major substation on Tilbury Marshes, which has provided the grid connection for Tilbury power station in the past. This connection point remains in place as a critical National Grid facility on the electricity network. This is why RWE has located its Tilbury Energy Centre and Thurrock Power its flexible electricity plant, near to this substation. The two schemes are independent of each other but in many respects are complimentary and will do much to provide resilience to the electricity system.

We recognise that there is a lot of development going on in the area alongside these two proposed energy projects, not least the Tilbury 2 port development, the proposed Lower Thames Crossing and the Government pushing for more land for housing. We have therefore made sure that we understand what all these developments mean together and what our proposal adds to the potential impact.

Thank you for taking the time to read this. We hope it gives you a little of the background to our proposed scheme but, more importantly, a way to obtain further information and provide your feedback.

Finally, please note: requests for information about the proposed development in other formats (for example, large print or braille) will be considered upon request.

Yours sincerely

Andrew Troup
Director | Statera Energy Limited

Encs. Feedback Form

Blank Envelope to be used with Freepost Address: Freepost THURROCK POWER

The sources of energy used across the UK are becoming more diverse with renewable energy such as wind, wave and solar power helping to reduce reliance on fossil fuels and create a less polluting power supply. This makes the energy supply less predictable and we need to find ways to store the energy so it can be released when it is most needed. The Thurrock Power Flexible Generation Plant will provide this flexibility with its gas engines and allow energy to be stored in batteries and released into the electricity network when demand for energy is at its peak, thus creating a more stable electricity supply. This is particularly important in London and the surrounding areas due to population density.

Please provide any comments you have relating to the proposed development, as indicated below.

Do you have any comments to make on the potential benefits and/or impacts of the proposed development?

Do you have any comments on the information provided in 'have your say' and/or Preliminary Environmental Information Report?

Do you have any other general comments you would like to make about the proposed development or this consultation process? (Please continue on a separate sheet of paper if more space is required and fix this securely to your form before returning it to us)

To help us understand feedback in more detail, please indicate whether you are (please tick all that apply to you):

A resident in the local area (if so, please give your postcode)	
Employed in a local business	
Owner of a local business	
Owner of land connected with the proposed development	
A tourist or visitor to the area	
Giving feedback on behalf of an organisation (if so, please give the name of the organisation)	

THANK YOU VERY MUCH FOR YOUR FEEDBACK
