---

Dear Sir/Madam,

**The Planning Act 2008 – Section 89  
The Infrastructure Planning (Examination Procedure) Rules 2010 – Rule 17**

**Application by Thurrock Power Limited for an Order Granting Development  
Consent for the Thurrock Flexible Generation Plant Project**

**Request for Further Information from the Applicant**

I write in relation to your submission of further information at Procedural Deadline C.

I note that in addition to the further information requested in my letter dated 2 November 2020, a number of additional documents have been submitted including an updated draft development consent order, updated drawings, management plans and Environmental Statement documents. Some of these updates are made in response to my request for further information, some in anticipation of potential change requests while others appear intended to address concerns raised by Interested Parties (IPs) in their Relevant Representations.

While I acknowledge that having early sight of these updated documents is useful, it is nevertheless important that all parties understand what information is made in response to my request for further information. This is in order to be in a position to comment on it at Procedural Deadline D. It is also important that all parties are clear on which documents relate to the application currently being considered and which are submitted in anticipation of a future change request. At present, I consider there is some ambiguity on this.

I am therefore writing to request clarification on the purpose for which each document has been submitted. This should be provided in the form of a schedule which clearly

identifies which documents (or parts thereof) form part of the further information requested in my letter dated 2 November 2020, which are intended to address matters raised by IPs in their Relevant Representations and those which relate to the anticipated change request. Where a document is submitted for more than one purpose, the schedule should identify which parts relate to which purpose.

I would be grateful if you could provide this information to the case team as soon as possible but no later than **Wednesday 13 January 2021** in order for me to consider whether any further procedural decisions are required before Procedural Deadline D.

This request is made under Rule 17 of the Infrastructure Planning (Examination Procedure) Rules 2010 (EPR). It is addressed to the Applicant, however other IPs wishing to respond may do so. I look forward to hearing from you.

Yours faithfully

*Rory Cridland*
