

Dear Sirs

EN010092: Thurrock Flexible Generation Plant

Procedural Deadline 1 Submission on behalf of RWE Generation (UK) Plc

We are acting for RWE Generation (UK) Plc ("RWE") in relation to the application for Development Consent for the above project.

Notification of wish to speak at hearings

RWE hereby notifies the Examining Authority of its wish to speak at the Compulsory Acquisition Hearing and also, if required, at any Hearing on the Development Consent Order in relation to the impacts on RWE's land.

Site Visit

If a site visit is undertaken as part of the Examination, RWE would request that it include the land owned by RWE within the Order Limits to help illustrate the difficulties caused by the development.

Further, if it is possible to undertake an accompanied site visit, RWE would request that a representative accompanies the Inspector on the visit to draw attention to particular features of relevance when assessing the impact of the development on RWE.

The main issue which RWE would wish to draw the Inspector's attention to relates to access issues on the land owned by RWE. RWE would welcome the opportunity to explain how the land and access are used currently and concerns about the proposed use of the land under the terms of the DCO.

Other Issues

RWE also confirms that as a statutory undertaker it wishes to be considered as an Interested Party for the purposes of the Examination and is happy to receive future correspondence in relation to the Examination electronically

Please do not hesitate to contact us if you require anything further.

Yours faithfully,

Eversheds Sutherland (International) LLP
