**Your Ref:** EN010092

**E-Mail:** [REDACTED]

**Date:** 12 August 2021

Dear Ms Williams,

### **Planning Act 2008**

**Ref:** EN010092

**Proposal:** Flexible Generation Plant comprising gas reciprocating engines with electrical output totalling 600 MW; batteries with electrical output of 150 MW; gas and electricity connections; the creation of access roads and a causeway; and creation of habitat and exchange Common Land

**Location:** Thurrock Flexible Generation Plant Fort Road Tilbury

### **Deadline 8**

Further to the above I write to you to provide a response to the points listed in the final examination timetable attached as Annex A from the Inspector's letter dated 9 June 2021 for Deadline 8.

- *Any further information requested by the ExA after Deadline 7 (if required), under Rule 17 of the Examination Rules.*

Further to the Council's representation at Deadline 7 in regard to Schedule 2 Requirement 19 of the draft DCO, prior to the version of the draft DCO showing removal of the causeway following the Rule 17 letter.

Thurrock Council has explored potential changes to Requirement 19 with the MMO and the applicant with regard to the MMO's concerns over enforcement powers, however, following further review and discussions with the applicant and the MMO Thurrock Council are not proposing any changes to the Requirement 19.

I trust that this information is of assistance and should wish to contact me regarding the content of this letter then please use the email address provided.

**Yours sincerely**

**Chris Purvis**  
**Major Applications Manager**
