The principal elements of REP comprise complementary energy generating development and an associated Electrical Connection (together referred to as the ‘Proposed Development’).

Following acceptance of the application for examination by the Planning Inspectorate (PINS) on 14<sup>th</sup> December 2018, Cory notified persons of the accepted application pursuant to section 56 of the Planning Act 2008.

Notification has been undertaken in accordance with the following Regulations:

- Regulation 9 of the APFP Regulations
- Regulation 16 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the EIA Regulations)

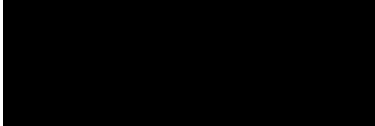

As part of the notification process, persons were given the opportunity to review the accepted application and register with PINS as an Interested Party and submit a Relevant Representation. The period given for persons to register an interest was from Friday 4<sup>th</sup> January 2019 until Tuesday 12<sup>th</sup> February 2019 (inclusive), being 40 days.

Pursuant to Regulation 10 of the APFP Regulations, Cory can now certify compliance with the above sections of the Planning Act 2008 and EIA Regulations. As such, certificates of compliance are enclosed with this letter.

Please contact us should you have any queries.

Yours faithfully
