12 July 2019

Dear Sir / Madam,

RE: Riverside Energy Park

The Marine Management Organisation (MMO) recently received the “Rule 17” letter in relation to the application by Cory Riverside Energy (“the Applicant”) for an order Granting Development Consent for the Riverside Energy Park Project on 01 July 2019.

The MMO has further reviewed the online documents, specifically “6.3 Environmental Statement Technical Appendices”. The MMO has established that there do not appear to be any works within the UK Marine Area (Section 42, Marine & Coastal Access Act, 2009). From the information provided it would appear that there are no licensable marine works which fall within our remit. Please note that any maintenance or alteration to the jetty discussed within section 3.3 of the Environmental Statement would be licensable.

With regard to the MMO’s previous response dated 04 April 2018, if marine works are required, we encourage the applicant to liaise with the MMO at the earliest opportunity in order to clarify any requirements for a marine licence, whether standalone or ‘deemed’ within a Development Consent Order (DCO). Where a marine licence is deemed within a DCO, the MMO is the delivery body responsible for post-consent monitoring, variation, enforcement and revocation of provisions relating to the marine environment.

If you would like to discuss this matter further, please do not hesitate to contact me directly.

Yours Sincerely

Jamie Short
Marine Licensing Case Officer
