Dear Sir / Madam

**RE: Application by Cory Riverside Energy for an Order Granting Development Consent for the Riverside Energy Park**

**Our Client: Western Riverside Waste Authority**

We write further to the Examining Authority's request to be notified as to whether our Client wishes to speak at the Compulsory Acquisition Hearing ("CAH") that may be scheduled for 17 – 19 September 2019.

While discussions with the Applicant have been positive, and remain ongoing, our Client is not yet in a position to withdraw its objection. At this stage, therefore, our Client would request to be heard at the CAH reserved for September. We will, of course, inform the Examining Authority immediately if the position changes.

Given the state of negotiations, our Client does not consider that it is necessary to submit any further comments on the application at Deadline 5. Our Client requests, however, that it be given the facility to submit further written material at Deadline 7 if necessary.

In the meantime, please do not hesitate to contact us if we can assist further.

Yours faithfully

*Shakespeare Martineau*
