Dear Sir / Madam

RE: Application by Cory Riverside Energy for an Order Granting Development Consent for the Riverside Energy Park
Our Client: Western Riverside Waste Authority

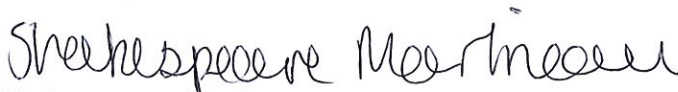

We write further to our letter of 12 August 2019.

Discussions with the Applicant have continued; however, our Client is not yet in a position to withdraw its objection. At this stage, therefore, our Client still wishes to be heard at the CAH reserved for 17 – 19 September. We will, of course, inform the Examining Authority immediately if the position changes following the meeting on 16 September.

Given the current position, our Client does not consider that it is necessary to submit any further comments on the application at Deadline 7. Our Client requests, however, that it be given the facility to submit further written material on or before 13 September 2019 if necessary.

In the meantime, please do not hesitate to contact us if we can assist further.

Yours faithfully

Shakespeare Martineau
