Dear Sir

Please see attached photos of the gates which are between Location 2 and Location 3 as described in "9.45 The Applicant's note on the ExA's Unaccompanied Site Inspection (USI)". The second photo (PXL_20211207_105242963) is taken from the top of the flood defence and you can see both sets of gates in that photo.

Kind regards

Abbie
