Dear Sir

EN010097: VPI Immingham OCGT Project - Preliminary Meeting

Dear Sirs

We are instructed by Phillips 66 Limited, who were present at the Preliminary Meeting held on 8 August 2019, and filed a Relevant Representation on 25 June 2019 in relation to this project.

Whilst Deadline 1 of your final examination timetable will make provision for representation as to the need for an accompanied site visit (ASI) we thought it would be helpful if we alerted you now to the need, in our submission, for an ASI to be carried out on our client's site. We also need to flag that there are security and safety protocols that will need to be observed for this site visit.

It is critical that you are able to see first-hand the route of the pipelines through key parts of our client's facility; the Humber Oil Refinery. The facility is an upper tier COMAH site (Control of Major Accident Hazards Regulations 1999). The applicant proposes compulsorily to acquire land and / or rights within that facility, and a site visit is needed to inform fully your understanding of the implications of the proposed DCO that will be explained further in our client's Written Representation.

The safety and security protocols will need to be observed by anyone, as well as the ExA, who is to be present and so we ask that appropriate time is provided for within your examination timetable for those arrangements to be put in place. In particular, our client will require the names of the attendees for the accompanied site visit at least two weeks in advance of the proposed date.

Whilst writing, we would also take this opportunity to notify the ExA of the following matters ahead of Deadline 1:

- Our client wishes to speak at the Issue Specific Hearing on the draft DCO; and
- Our client wishes to speak at a Compulsory Acquisition Hearing; and
- Our client wishes to receive all future correspondence electronically, by email to alex.minhinick@burgess-salmon.com and Helen.Lindley@contractor.p66.com
