ND-4111-2018-PLN

Dear Sir/Madam,

The site is within the North East Lindsey Drainage Board area.

The Board has no objection to the proposed development provided it is constructed in accordance with the submitted details and Drainage Strategy. It is noted the proposed surface water discharge from the site is to be attenuated to 10.8l/s. However should anything change in relation to the method of surface water disposal and/or in relation to the flood risk assessment etc then this Board would wish to be reconsulted.

The Board would support the use of SuDS.

The applicant is reminded that under the terms of the Land Drainage Act, 1991 the prior written consent of the Board is required for any proposed temporary or permanent works or structures within any watercourse including infilling or a diversion. The Applicant is aware of this and consulted the Board directly.

Regards

Guy Hird
Engineering Services Officer
