1 Introduction

1.1 Overview of Hornsea Four

1.1.1.1 Hornsea Four is an offshore wind farm which will be located approximately 69 km offshore the East Riding of Yorkshire in the Southern North Sea and will be the fourth project to be developed in the former Hornsea Zone. Hornsea Four will include both offshore and onshore infrastructure and consists of:

- **Hornsea Four array area:** This is where the offshore wind generating station will be located which will include the turbines, array cables, offshore accommodation platforms and a range of offshore substations as well as offshore interconnector cables and export cables;
- **Hornsea Four offshore export cable corridor (ECC):** This is where the permanent offshore electrical infrastructure (offshore export cables, as well as the High Voltage Alternating Current (HVAC) booster station (if required), will be located;
- **Hornsea Four intertidal area:** This is the area between Mean High Water Springs (MHWS) and Mean Low Water Springs (MLWS) through which all of the offshore export cables will be installed;
- **Hornsea Four onshore export cable corridor:** This is where the permanent onshore electrical cable infrastructure will be located; and
- **Hornsea Four onshore substation (OnSS) including energy balancing infrastructure:** This is where the permanent onshore electrical substation infrastructure (onshore High Voltage Direct Current (HVDC) converter/HVAC substation, energy balancing infrastructure and connections to the National Grid) will be located.

1.2 Purpose of Statement of Commonality

1.2.1.1 This document provides the Examining Authority (ExA) with an overview of the position of each Statement of Common Ground (SoCG) between the Applicant and the interested parties (see Annex E or Rule 6 Letter (PD-005)) in relation to Hornsea Four at Deadline 1. This document will be updated and submitted at the requested deadlines outlined in the Examination timetable.

1.2.2 Structure

1.2.2.1 This report is structured as follows

- Section 2: Summary of commonality of each topic covered – provides an overview of all topics covered and each stakeholder's position.
- Section 3: Tables of commonality – this provides further detail on the aspects of each topic that are covered by the SoCG and each stakeholder's position.

1.3 List of Statement of Commonality

1.3.1.1 **Table 1** provides the list of SoCGs that have been prepared by Hornsea Four and the respective regulative authority in accordance with the list as requested by the Planning Inspectorate in the Rule 8 letter issued in 28th February 2022

1.4 Summary of Current Position of SoCG

1.4.1.1 The SoCGs submitted alongside this document at Deadline 1 reflect the positions of the Applicant and stakeholders.

1.4.1.2 **Table 1** provides an overview of the status of each SoCG throughout the examination including those finalised at, and prior to, Deadline 1.

1.4.2 Letters of Comfort (LoC) and Position Statements (PS)

1.4.2.1 In some instance Letters of Comfort (LoC) and Positions Statements (PS) were prepared instead of SoCG. The matters on which the parties remain in discussion are limited in scope (i.e. substantive matters are either agreed or can be addressed post consent through crossing and/or proximity agreements) and so the LoCs were considered to be more appropriate than a SoCG in order to capture status of discussions. The outline of each LoC and PS is provided below. A PS is substantively the same as a SoCG but follows a different format to allow each party to identify the issues pertinent to their commercial interests and to determine the level of detail to put before the ExA pending the conclusion of commercial discussions. The PS will be updated in the same way as a SoCG.

2 Summary of Commonality of Each Topic Covered

- 2.1.1.1 This section provides a summary of the topics covered in each of the SoCGs and shows there is a commonality in the topics or matters being discussed with the stakeholders.
- 2.1.1.2 **Table 3** presents a summary of commonality at Deadline 1, on each topic discussed between the Applicant and stakeholder using the following colour code:

	Matter agreed
	Matter not agreed
	Matter subject to further discussion
	Topic not relevant to the stakeholder or deferred.

Hornsea 4

Natural England: Derogation and Compensation Matters	Yellow														Yellow												
Natural England: Onshore																		Green	Green	Yellow		Yellow			Green		Yellow

3 Additional commentary

3.1.1 Comment of the status of the The Wildlife Trust (TWT) SoCG

The Applicant sent the draft SoCG to TWT on 16th February 2021. Following receipt of the draft SoCG, due to resourcing issues, TWT confirmed a preference to pursue a more strategic approach to address their overarching concerns. It is the Applicant's understanding that their overarching strategic concerns relate to underwater noise management, benthic ecology, mitigation, compensation and monitoring (though this understanding has not been confirmed by TWT). The Applicants position is that all strategic concerns are also Hornsea Four specific concerns. It is therefore the Applicants intention to work with the wider Ørsted group and TWT to draft a SoCG from a strategic perspective utilising the attached draft SoCG template due to the clear overlap between strategic concerns and Hornsea Four concerns. An updated SoCG will hopefully be submitted into deadline 3. This will allow the parties further time to collaborate This statement has been agreed with TWT.

3.1.2 Comments of the status of Natural England and RSPB SoCG

3.1.2.1 The SoCG for RSPB and Natural England (relating to Other Offshore Matters, Derogation and Compensation and Offshore Ornithology) as submitted at Deadline 1 are drafts as provided to the stakeholders for review. Neither stakeholder has had the opportunity to provide comments ahead of Deadline 1. The Applicant is anticipating comments back from both stakeholder by either Deadline 2 or Deadline 3.

3.1.3 Comments of the status of Network Rail, Northern Gas, National Grid Electricity Transmissions PLC and National Grid Gas PLC Position Statements

3.1.3.1 The Position Statements between Hornsea Project Four and Network Rail, Northern Gas, National Grid Electricity Transmissions PLC and National Grid Gas PLC as submitted at Deadline 1, are drafts as provided to the stakeholders for review. The stakeholders have not had the opportunity to provide comments ahead of Deadline 1 but the Applicant is anticipating comments back from the stakeholders by Deadline 2.

4 Final positions

4.1.1.1 This will be completed and submitted to the ExA at Deadline 7.

5 Protective Provisions

5.1.1.1 This will be completed and submitted to the ExA at Deadline 7.
