

Viking Link note the invitation to attend the Issue Specific Hearing on 26 April. Unfortunately, due to prior commitments, representatives of Viking Link will not be able to attend. However, discussions are ongoing between Viking Link and the Promoter and the parties are in the process of preparing a joint position statement which will be submitted to the Examination ahead of the hearing to provide an update on these discussions. The parties are also working together to ensure the Promoter is provided with the relevant technical information in relation to the impact on Viking Link.
