Dear Sir/Madam,

Thank you for the request for information in regards to Civil Aviation Authority guidance (in particular the Policy and Guidelines on Wind Turbines (CAP764) and the Specific Approval for Helicopter Offshore Operations (SPA HOFO).

The CAA is engaging with the aviation industry and its associations who are working on safety initiatives to consider potential improvements to regulatory requirements and guidance material for offshore operations. However we do not yet have a planned date for proposing changes to CAP764 policy and guidance in respect of Helicopter Main Routes; any such update is likely to be associated with changes to the Air Operations Regulation, UK Reg (EU) 965/2012 and as such will require legislative proposals through UK Parliament.

We would be happy to provide further information if this would be helpful.

Kind regards

Andy
