Subject: RE: The Net Zero Teesside Project - NatureScot response

Categories: Deadline

Dear Siân

Planning Act 2008

Application by Net Zero Teesside Power Limited and Net Zero North Sea Storage Limited for an Order Granting Development Consent for the Net Zero Teesside Project

Other Person status in the Examination

Thank you for contacting us about the Examination for this full chain carbon capture, usage and storage project including a gas-fired electricity generating station at, and in the vicinity of, the former Redcar Steel Works, Redcar and in Stockton-on-Tees.

I have taken note of the Rule 8 Letter and our responsibilities towards European sites, and we consider that the proposal is unlikely to affect Scottish protected areas, and we therefore do not need to be involved in providing evidence to the Examination.

Kind regards
Crispin Hill
