How to fill in this form

Each section or question on the form includes corresponding notes to enable you to complete this form.

The Planning Inspectorate implements a process which is governed by the Planning Act 2008 and related legislation. Whilst we make every effort to ensure that our public information is written in language that is easy to understand, it is also necessary to refer to some of the terms that are used in the Planning Act 2008. These are words and phrases that may not be familiar to everyone but they will be used during the *Examination* by legal representatives, Inspectors and others.

To be valid, the fully completed form must be received by the Planning Inspectorate by the deadline stated at the top of this form.

Section 2 – Your Representation

Here you should summarise the aspects of the *application* you agree and/ or disagree with and say why. Outline what information, local knowledge or evidence you have which supports this. Please aim to limit this section to no more than 500 words (please use extra paper if needed).

My concerns about the Sunnica energy farm are similar to those expressed by the majority of residents in the villages in close proximity to it.

- 1/ The enormous scale and size.
- 2/ The loss of agricultural land
- 3/ The loss of wildlife habitats, especially rare species
- 4/ The possible danger of toxic pollution from lithium batteries.
- 5/ The lack of sufficient screening and landscaping.
- 6/ The possible contamination of a rare chalk stream.
- 7/ The loss of distinctive rural farmland views.
- 8/ The disturbance, noise and disruption on local traffic on our narrow road networks etc etc etc!

However, my main concern is the impact on the Foot residents in the villages of Isleham, West Row, Barton Hills, Worlington, Red Lodge Kennet - Snailwell. This development is frighteningly close to private homes, schools, equine establishments etc. Indeed it is just a few hundred metres from a Free church, The Ark, where up to 500 people meet on Sundays - many gather throughout the week.

This proposal has already caused much (pro) distress to so many villages. It has affected the

The Planning Act 2008 process is primarily a written *Examination* process and if you are registered as an *Interested Party* you will have an opportunity, later in the *Examination* process, to provide a more detailed *Written Representation*.

You cannot reserve a right to make a *Representation* later without providing a summary of the points you intend to submit at this stage.

Your *Representation* should take the form of a summary of what you agree with and/ or disagree within the *application*, and any impacts you think it would have.

Please note that your *Representation* **must not** include material that is:

- vexatious or frivolous;
- about compensation for Compulsory Acquisition of land or of any interest in or right over land; or
- about the merits of policy set out in a National Policy Statement.

The information you include in the *Representation* section of this form will be used by the *Examining Authority* to carry out its *Initial Assessment of Principle Issues* and to decide the best way to examine the *application*.

Please check that you have completed all relevant sections, otherwise you may not be able to take part in the later stages of the *Examination*.

The Planning Inspectorate aims to communicate with people by email wherever possible, as electronic communication is more environmentally friendly and cost effective for the Planning Inspectorate as a government agency, given the volume and frequency of letters it needs to send to *Interested Parties* during an *Examination*. **Therefore if you provide an email address we will use this.**

If you say that you agree to receive communications by email, you can change your mind later provided you give us seven days notice, either in writing or by email.

well being of caring people. Our villages will be dominated by acres of solar panels. Communication with neighbourly villages will be disrupted. This solar energy farm will have a disastrous effect on so many people.

How and why was this site chosen for such an enormous development?

I respectfully ask the Secretary of State to come to our villages and see for himself what an enormous, devastating impact this will have on so many lives.

Thank you for attending to this matter
