Re: the Sunnica Energy Farm project Development Consent Order Application

It is quite clear the Sunnica application should be examined with the minimal of further delays, as a consideration to the following:

Issues will occur during the time scale of any project, yet at a time continued modifications have to stop or be ignored, as a decision to accept or reject the application needs to be made. The delay is not justified nor appropriate in light of the guidance!

*The Secretary of State's expectation is that examining authorities will not normally agree to postpone the start of an Examination for longer than 3 months. The*

*qualification 'not normally' is noted. Quoted from the applicants response letter dated 28<sup>th</sup> April 2022*

Do not play word games with people's welfare. Continued legal ambiguity around the genuine meaning of a word is not justification and should neither be considered.

Residents in and around the proposed site are in a state of mental torture and their health and welfare is seriously being adversely affected by this application and any further delay into the inspectorate decision to accept or reject this application will cause greater anguish.
