Dear Planning Inspectorate,

I object to the Preliminary Meeting being delayed until mid-July 2022 and the Applicant's proposed timetable to consult further on amendments intended to form the formal Change Request to be made to the ExA, as I believe this once again shows the arrogance of the Applicant and the lack of preparedness by the Applicant. Sunnica have had more than adequate opportunity to explore all of the options.

I believe Sunnica's request shows that they can not be trusted to operate such a site if they lack the detail required at this stage.

Regards

Mr Trevor Layn
