Date: 17 May 2022 16:56:21

Dear Sir / Madam

My Unique Reference - 20030348

Thank you for your email of the 4th May in respect of the Sunnica Application, particularly their request to delay the process.

I do not think that the Preliminary Meeting should be delayed.

Option 1 was there best shot; the National Grid cannot accommodate it. Not a very impressive piece of research by Sunnica. This compounded by their second choice, Option 2 not suiting them either. To have not established these details before making the application does seem rather amateurish. How many more alterations/amendments will there be and how much more time will these take?

There should not be any change to the proposed timetable.

As in the reply to the first question, if there is another option allowed, the impact assessments, consultations and all that goes with them will further delay the whole process. I would prefer that this matter stick to the previously agreed timetable.

Thanks again for the email

Best regards

Ed Lubbock
