Dear Mr Kean,

I have previously registered with you.

I would suggest that there is a delay to the Preliminary Meeting and the start of the Examination for the Sunnica project brought about by the recently established connectivity problems to the Grid.

This connectivity problem is a material change which will entail significant reworking. Sunnica will now need to produce marked changes to the Development Consent Order application along with changes to submitted scheme documents, including impact assessments. The required delay in making these changes should be long enough to ensure Sunnica carry out their work thoroughly and that interested parties subsequently have access to amended details of the scheme.

There should be time to allow fair participation of stakeholders reflecting the impending holiday season and absences attached to that.

If a satisfactory timetable cannot be agreed, the application must be withdrawn and resubmitted in due course should the Applicant wish to proceed.

Best regards,

George Moss
