Subject: 6 month examination stage delay.
Date: 18 May 2022 11:53:28

Good morning.

I am writing regarding the request by Sunnica to delay the 6 month examination.

I oppose this request as I feel that at the stage were the application was submitted an issue such as connection to the UK power network is essential to the very core of the whole venture.

I feel that Sunnica have not carried any substantial advance examination in regard to connecting to the power network.

If they have asked for a delay in the application at this point for such an important issue how many delays will be requested as the application continues.

Kindest regards

Martin Attree
