Subject: Sunnica request for further delay
Date: 17 May 2022 22:25:14

Dear Sir/Madam,

The request by Sunnica Ltd for a delay to the preliminary meeting further highlights how badly conceived their whole scheme is. It does seem extraordinary that no definite solution has yet been offered for something as central to their project as the connection to the National Grid. The option 3 put forward by Sunnica brings up many new issues and questions that they are very unlikely to be able to provide satisfactory answers to within their proposed time table, if their woeful record so far is anything to go by. Their request should be rejected.

Yours Faithfully,

Benoit Herinckx
