---

To whom it may concern,

Sunnica have not complied with the DCO process. Everyone in the community believes that they have taken shortcuts to put through a movement that is against the community will. We would ask that they withdraw the application and asked to resubmit after detailed consultation with local communities, Paris, District and County councils.

Should they not withdraw please consult all parties to find a clear and agreed date to approve the planning. We need to debate this issue, as it affects everyone in the area to an enormous extent.

The date proposed during the summer holidays is clearly devised to mean people cant attend to the issue as they would like. Lets retart this in the autmn when it can be debated fairly and clearly.

Thank you,
