Subject: Sunnica Request to delay Proceedings
Date: 18 May 2022 22:06:48

Dear Sirs

We regard to the request by Sunnica to revise the timetable for their proposed development, I make the following points.

- 1) I object to the amount of time it gives to study the changes it is likely to propose.
- 2) it is hard to see how all the necessary amended documents can be prepared in the time frame proposed and give sufficient time for review.
- 3) it is essential that the community is given time to study all the revised information and they should be required to consult fully with all interested parties.
- 4) The action group have voiced many concerns and I wish to support them in these.

Yours faithfully

Deirdre Hyde
