

## **SUNNICA ENERGY FARM DEVELOPMENT CONSENT ORDER**

### **REPRESENTATION ON BEHALF OF NATIONAL GRID ELECTRICITY TRANSMISSION PLC**

1. This representation is made on behalf of National Grid Electricity Transmission Plc ("NGET") in response to the Examining Authority's request for information dated 4 May 2022.
2. As set out in NGET's Relevant Representation, the Option 1 connection to the NGET Burwell Substation included in the current DCO application is not technically feasible and therefore NGET fully supports the removal of this Option from the Application along with associated modifications.
3. NGET and the Promoter are currently discussing the 'Option 3' connection as described in the Promoter's letter dated 28 April 2022 for inclusion in the revised DCO application. The new 'Option 3' substation, as would be the case with the other options, would be retained by the Promoter and would not form part of NGET's assets or undertaking. NGET would continue to provide the connection to the NGET Burwell Substation. NGET are supportive of the 'Option 3' connection.
4. On this basis, NGET supports the delay in the Preliminary Meeting as requested by the Promoter.
5. NGET is committed to working with the Promoter in relation to the above and is happy to provide any further information required by the Examining Authority.
